

Phase: Pre- Construction

Threatened animal- BTF and Squatter pigeon

Weed Management:

- Weed wash down for all vehicles coming into and exiting the site

Phase: Pre- Construction

Threatened animal- BTF and Squatter pigeon

Land Management:

- No construction vehicle access outside TRR4 road reserve on adjacent state land
- Weed control and management
- Fire management

Phase: Pre- Construction

Threatened animal- BTF

Near Nesting Areas

- Avoid clearance/slashing for perimeter fence in breeding season: Feb- June and Oct-April
- Pre-clearance survey before early works commence in this area
- Fencing barriers and toolbox talks
- Minimise clearing of grassland habitat

Phase: Construction and Operational

Refer to TMR Weed Management Plan

Phase: Construction and Operational

Refer to TMR Fire Management Plan

Protected Plant - no disturbance

Phase: Construction

- Peg to establish construction controls (clearing limits, temporary benchmarks etc.)
- Site establishment and environmental controls
- Clearing, grubbing and earthworks (maximum width as specified in vegetation clearance plan)
- Revegetation and environmental management
- Topsoil replacement and final reinstatement
- Management of the environmental impacts during construction
- Reinstatement of all disturbed areas

Sediment and Erosion Control plans

- Applicable to entire alignment
- Stringent around waterways

Known Weed Locations	Squatter Pigeon AECOM Survey	<b>BTF Breeding Habitats</b>	<b>Potential Habitat for Bare-rumped Sheathtail Bat</b>
NRA Field BTF Sighting and Nest Records (December 2012, April 2013 data)	Squatter Pigeon NRA Survey	Higher Probability BTF Habitat	Roosting (optimal)/foraging
BTF Sightings (AECOM Survey)	TRR4 Project	Higher Probability BTF Supporting Habitat	Roosting (marginal)/foraging
Bog Figwort Population	Extent of Proposed Disturbed Area	Lower Probability BTF	Roosting (very marginal)/foraging
		Lower Probability BTF Supporting Habitat
