**Please Note**

- The above program of works, current at 2 August 2016, is indicative only and subject to change without notice. For example, projects may be deferred without notice to respond to emerging government priorities.
- The current proposed estimated Contractor/Consultant spend, procurement method, expected time to market and expected duration of commission for the above projects is indicative only and subject to change without notice.
- The term ‘*Project Status*’ refers to whether the project is a:
  - ‘*Continuing*’ project that was funded in the 2015-16 TSPP (or earlier) and is continuing into 2016-17, or a
  - ‘*New*’ project that is starting from 2016-17.

**Planned Procurement Method**

Transport and Main Roads has committed to using the Whole of Government Engineering Consultant Scheme (WoG ECS) for procurement where appropriate and practical. TSPP procurement will be undertaken via the WoG ECS in most cases, off-scheme engagement will be by exception only.

WoG ECS - Open Tender via Discipline/Sub-discipline	Offer made available to all suppliers within a selected Discipline/s on the WoG ECS.
WoG ECS - Restricted Tender	Restricted offer on the WoG ECS released to a small number of suppliers with known experience relevant to commission.
WoG ECS - Multi-stage process	Expression of Interest, via open offer to all suppliers within selected Disciplines/s on the WoG ECS, to shortlist to a small number of suppliers followed by a restricted offer process to those selected suppliers.
WoG ECS - Sole Invitation	Offer released to a single supplier only on the WoG ECS.
TMR Consultants for Engineering Projects	Procurement process utilising TMR’s Consultants for Engineering Projects Panel.
Other	Procurement process not using the WoG ECS or TMR’s Consultants for Engineering Projects.
