

Cunningham Highway Bridge demolition work

Origin Alliance is continuing work on upgrading the connection between the Ipswich Motorway and the Cunningham Highway and thanks you for your patience and understanding during these important works.

As a part of these works, the demolition and removal of the existing Cunningham Highway Bridge in Dinmore is required.

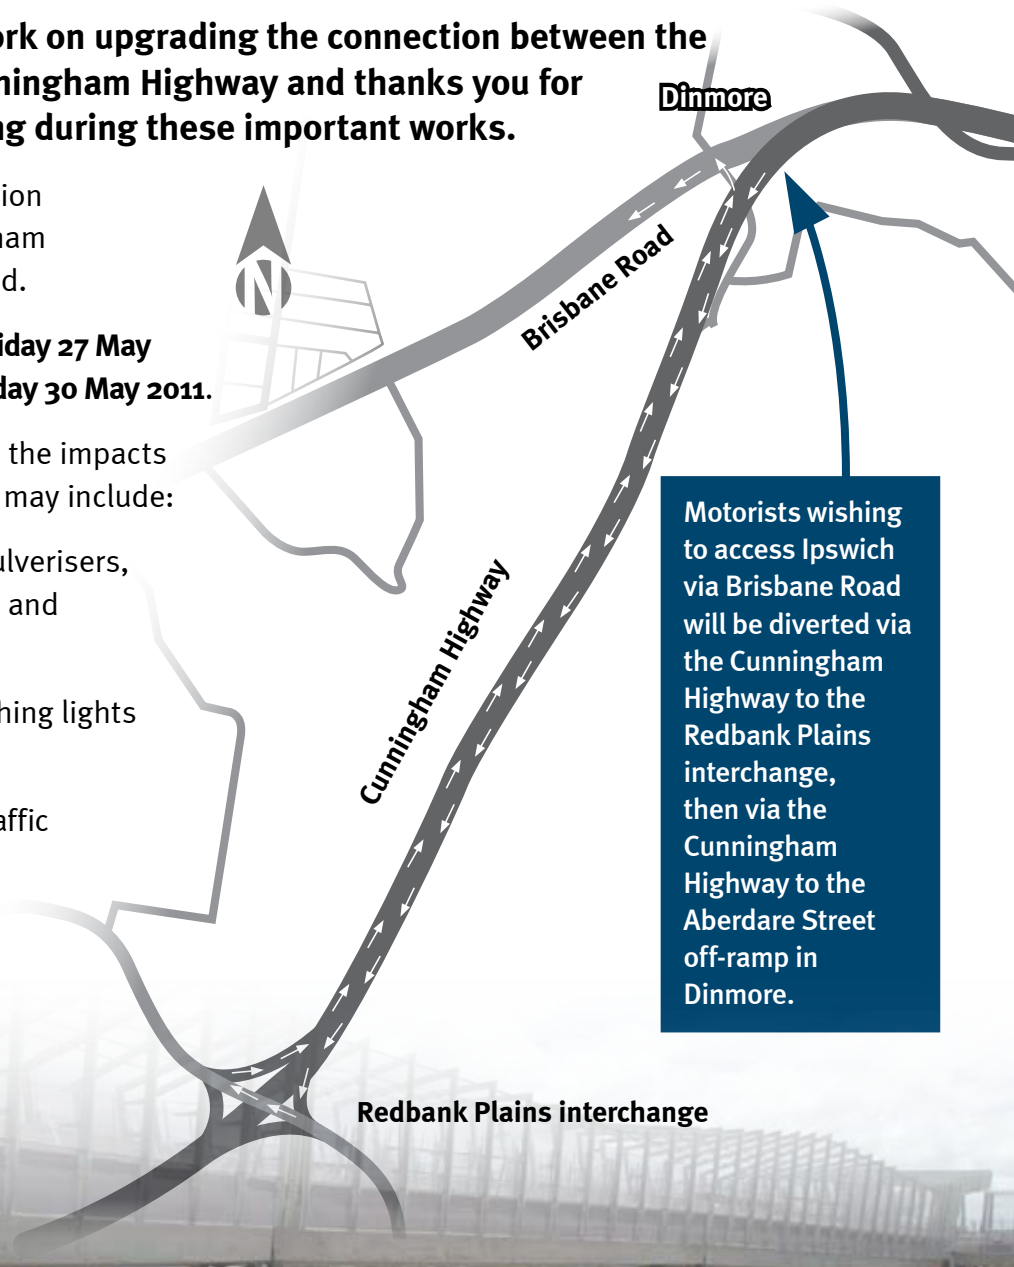

Works will be undertaken from **8 pm Friday 27 May** and will continue through to **5 am Monday 30 May 2011**.

Every effort will be made to minimise the impacts on the community. Potential impacts may include:

- an increase in noise levels from pulverisers, rock hammers, generators, cranes and construction vehicles
- the use of lighting towers and flashing lights from construction vehicles.

During these works, a diversion and traffic management will be in place to direct motorists travelling from the Ipswich Motorway to Brisbane Road (see map to the right).

Works are subject to weather and construction conditions.

Motorists wishing to access Ipswich via Brisbane Road will be diverted via the Cunningham Highway to the Redbank Plains interchange, then via the Cunningham Highway to the Aberdare Street off-ramp in Dinmore.
