

# Approved motorcycles for Learner Approved Motorcycle Scheme (LAM Scheme)

**\*\*Revised 18 April 2012\*\***

On 1 July 2009, the Learner Approved Motorcycle (LAM) Scheme for learner riders and those holding an RE licence commenced in Queensland. The LAM Scheme allows riders who hold an RE class licence to ride moderately powered motorcycles with an engine capacity up to 660 millilitres (mL) and which do not exceed a power to weight ratio of 150 kilowatts per tonne (Kw/t) and are shown on this list. The following list, which will be adjusted as new models are approved, displays details of all motorcycles that can be ridden by the holder of an RE licence (including learners).

## Note

- It is the responsibility of all motorcycle licence holders to make sure that they are riding an appropriate motorcycle for their class of licence. The holder of an RE licence, (including a learner licence) can only ride a motorcycle that has been approved as a LAM and is included on the list.
- To be a LAM the motorcycles must be in the **standard form as produced by the manufacturer**. Any motorcycle modified in a way that increases the power-to-weight ratio of the motorcycle is not LAM approved regardless of whether it appears on this list.
- **Individually Constructed Motorcycles (custom made)** will not be considered for inclusion within the LAM Scheme.
- Motorcycles **produced prior to 1960 and do not exceed 660 mL** will be included within the scheme.
- If you have a registered motorcycle that may qualify as a LAM Scheme approved motorcycle, please visit a Department of Transport and Main Roads customer service centre with the vehicle registration number to investigate eligibility further. Please note this check can be performed for registered motorcycles only.

### Eligible motorcycles in the category 0 – 250 mL

All models, 0 mL to 250 mL, including mopeds, are eligible for use on an RE licence and are included within the LAM scheme. Individual makes and models are not listed.

The following 0 mL – 250 mL motorcycles, are **excluded** from the LAM scheme.

Suzuki	RGV250
Kawasaki	KR250 (KR-1 and KR1s models)
Honda	NSR250
Yamaha	TZR250
Aprilia	RS250

Conditionally registered motorcycles which have not been approved under Australian Design Rules certification are also excluded.

### Eligible motorcycles in the category 251 mL – 660 mL
