

Roads in the Wilderness **by Lyall Ford**

Roads in the Wilderness was written as a part-time project by Lyall Ford who is Director (Project Management Services) in the Department of Main Roads. It records the history of the development of the road network in Far North Queensland between the 1860s and the 1960s. This 400 page A4 size book has been divided into two parts – the dray and wagon road era between 1863 and 1920 and the automobile era which incorporates the history of the Main Roads organisation in Far North Queensland from 1920 to 1963. Considerable detail is provided about individuals involved in road building and methods of road construction. It is illustrated throughout by photographs and maps, and includes comprehensive end notes and an index.
