

Have your say

Main Roads encourages you to participate in the planning for the MMTC.

By providing feedback to the project team, you will be making sure project planning identifies and addresses matters of importance to you and your community.

Throughout the project, a range of consultation activities is planned to provide you with more information about the preferred options.

Opportunities for nearby property owners, business operators and the wider community to comment on the project will be announced as planning progresses.

Main Roads values your input.

Contact

You are welcome to contact the project team at any time.
