

Traffic notification
April 2010

Pacific Motorway Upgrade
Springwood (south) to Daisy Hill

On-ramp temporary closure

The Winnetts Road southbound on-ramp will temporarily close and changed traffic conditions at Exit 25 to Shailer / Daisy Hill Roads will be in place from Sunday, 11 April 2010, weather permitting.

The southbound on-ramp to the Pacific Motorway from Winnetts Road, Daisy Hill, will temporarily close from 11 April 2010, weather permitting. The temporary closure will be in place until mid to late 2010, when the new Winnetts Road on-ramp is built as part of the Pacific Motorway Upgrade.

A temporary alternative route via the existing southbound on-ramp at Shailer Road, Daisy Hill, will be provided.

Closing the existing southbound on-ramp at Winnetts Road will improve safety during construction and fast-track works on the new on / off-ramps at Winnetts Road and the new Loganlea Road five-lane overpass.

What to expect

- Alternative southbound access to the Pacific Motorway will be provided via the existing on-ramp at Shailer Road, Daisy Hill (refer map overleaf). The alternative route will be clearly signposted.
- As part of the alternative route, there will be temporary changes to turning movements at the Shailer Road on and off-ramps:
 - The right-turn lane from Shailer Road to the motorway on-ramp will be extended to provide additional capacity for vehicles.
 - Movements from the motorway off-ramp to Shailer Road will be restricted to left-turn only. Motorists using Exit 25 who wish to travel south along Shailer Road will be able to use the existing roundabout at Daisy Hill Road.
- The new Winnetts Road on-ramp is expected to open in mid to late 2010.

These works are part of the \$420 million upgrade of the Pacific Motorway from Springwood (south) to Daisy Hill to improve safety, traffic flow and access on the Pacific Motorway.

Roadworks can cause some inconvenience for residents and local businesses and the project team will seek to minimise impacts as much as possible.

All changes to traffic conditions will be advised through letterbox flyers, traffic updates on the **13 19 40** phone line and website, and roadside signs throughout the work site.
