

FlatFare share ride taxi service

FlatFare is a new taxi service operated by Regent Taxis and supported by Queensland Transport.

Pay a flat fare rate to share the ride home with others going in the same direction.

FlatFare taxi services are share ride and not a personalised taxi service. Single passengers and couples will be required to share the cab and will have to wait for others travelling in same direction.

FlatFare services offer:

- single fare - a one person fare
- couples fare - a two person fare
- group fare - a group of five people or more travelling to same location.

Single passengers and couples using the service will be required to wait until

a suitable group going in the same general direction can be formed by the marshal to share the taxi.

The fare is paid directly to the driver at the beginning of the journey. You are required to pay cash. Credit cards are not accepted.

The service operates from 11.00pm until 5.00am Friday and Saturday nights from the secure taxi rank in Surfers Paradise on the south side of Cavill Avenue opposite Fiddlers Green.

FlatFare operates within a zone system (zones 1 to 11, see back for details).

For more information speak to the marshal at the FlatFare rank or go to Regent Taxis at www.regenttaxis.com.au.
