Data extracted from Enterprise Business Intelligence (EBI) on 26/09/2011

Please note: Data Analysis allows a 3 month lag for extracting and providing infringement data. This allows for completeness of data and time for the infringement notice to be forwarded from Queensland Police to Department of Transport and Main Roads for entering into TRAILS. The 3 month lag includes the 28 day period for the alleged offender to pay or respond to the infringement notice. Some offence categories will still be understated due to the prolonged time it takes for these matters to be finalised.

Please note: Total face value of the offence is calculated using the current fine amount as at the date of extraction by the total number of infringements issued. This is not the total of payments received.

Data extracted from Enterprise Business Intelligence (EBI) on 26/09/2011

Please note: Data Analysis allows a 3 month lag for extracting and providing infringement data. This allows for completeness of data and time for the infringement notice to be forwarded from Queensland Police to Department of Transport and Main Roads for entering into TRAILS. The 3 month lag includes the 28 day period for the alleged offender to pay or respond to the infringement notice. Some offence categories will still be understated due to the prolonged time it takes for these matters to be finalised.

Released under RTI Act 2009

Data extracted from Enterprise Business Intelligence (EBI) on 26/09/2011

Please note: Data Analysis allows a 3 month lag for extracting and providing infringement data. This allows for completeness of data and time for the infringement notice to be forwarded from Queensland Police to Department of Transport and Main Roads for entering into TRAILS. The 3 month lag includes the 28 day period for the alleged offender to pay or respond to the infringement notice. Some offence categories will still be understated due to the prolonged time it takes for these matters to be finalised.
