Bruce Highway Managed Motorways Project

Variable speed limit signs to allow the speed limit on the southbound highway lanes to be reduced for safety and congestion reasons.

Legend
- Bruce Highway
- Southbound highway on-ramps with ramp signals installed
- Ramp signals to indicate to motorists when ramp signals are active
- Ramp signals to control the rate at which vehicles merge onto the southbound highway lanes
- Variable speed limit signs to allow the speed limit on the southbound highway lanes to be reduced for safety and congestion reasons
