Notice to motorists

Northbound Bruce Highway traffic changes in Tanawha

As part of the Bruce Highway Upgrade – Caloundra Road to Sunshine Motorway, a number of traffic changes are required to upgrade the Sunshine Motorway interchange in Tanawha.

In the week commencing Monday 2 September 2019 (weather permitting), northbound access to and from the Bruce Highway will change at the Sunshine Motorway interchange. These traffic changes are expected to occur within a two week period. Details will be displayed on construction signage.

Please refer to the map overleaf.

What to expect

New northbound Bruce Highway entry ramp:
- The new northbound Bruce Highway entry ramp from the Sunshine Motorway will permanently open to traffic.
- The permanent entry ramp will run parallel to Wilson Road and connect motorists from the signalised intersection at Exit 194 to the Bruce Highway northbound.

Diversion onto new northbound carriageway:
- Northbound traffic will also be diverted onto the new northbound highway carriageway from the new entry ramp for approximately one kilometre.

Temporary northbound Bruce Highway Exit 194:
- The current northbound Bruce Highway exit ramp (Exit 194) to the Sunshine Motorway will be closed and traffic will be temporarily detoured onto a new ramp.
- The temporary northbound Bruce Highway Exit 194 will be located approximately 900m after the northbound highway entry ramp from Aussie World.
- Traffic signals will also be provided at the intersection of the temporary Exit 194 and northbound highway entry ramp from the Sunshine Motorway.
- The temporary northbound Bruce Highway Exit 194 will provide four times the storage capacity of the current exit ramp to assist with traffic flow in the area. The signalised intersection will also coordinate traffic movements to improve safety for motorists entering and exiting the Bruce Highway.

Traffic detours and lane closures:
- Bruce Highway northbound and Sunshine Motorway westbound and eastbound traffic will be intermittently detoured at night to facilitate these changes.
- Temporary lane closures will also occur to allow for pavement works, signage, traffic signal and guardrail installation and line marking.
- Traffic controllers and police will be present to assist motorists if required.
- Motorists are advised to follow directional signage and allow extra travel time.

Temporary lighting and audible noise
- Lighting towers will be used at night. Audible noise from construction activities and heavy machinery can be expected.

Working hours

Both day and night works will be required to complete these works.

The project’s working hours are:
- **Night works:** Sunday to Thursday, 7pm to 5am.
- **Day works:** Monday to Saturday, 6am to 6pm.

It is important to note that these activities are dependent on weather conditions.

Further temporary traffic changes will be implemented in Tanawha as construction progresses. We will continue to notify you of these changes before they occur.

*We thank the local community for your patience and cooperation during these works.*
