

Bruce Highway Upgrade

Caloundra Road to Sunshine Motorway

Construction Notice

April 2019

Ref: CN47

Notice to motorists

Changes to Bruce Highway northbound access from Sunshine Motorway

As part of the Bruce Highway Upgrade – Caloundra Road to Sunshine Motorway, a number of traffic switches are required to upgrade the Sunshine Motorway interchange.

From the night of 16 April 2019, new traffic arrangements will be in place for the Sunshine Motorway entry ramp to the Bruce Highway northbound. These arrangements will also change how motorists travel to and from Cunning, Wilson, Parkyn and Sippy Creek roads in Tanawha.

The traffic changes will enable construction to progress into a new work area at the interchange and are expected to be in place until mid year.

Please refer to the map overleaf for more information.

Further temporary traffic changes will be implemented in Tanawha as construction progresses. The Department of Transport and Main Roads will continue to notify you of these changes before they occur.

What to expect

Changed traffic conditions for northbound Bruce Highway entry:

- A temporary connection road will extend from the Exit 194/Sunshine Motorway intersection to the new service road (to be known as Frizzo Connection Road).
- Motorists wishing to access the northbound Bruce Highway on-ramp will have right of way at the Frizzo Connection Road intersection.

Changed traffic conditions for Cunning, Wilson, Parkyn and Sippy Creek roads:

- The temporary road will provide a two-way connection between the Sunshine Motorway and Frizzo Connection Road. This means motorists from Cunning, Wilson, Parkyn and Sippy Creek roads will be able to access the Sunshine Motorway via this temporary connection road.
- Motorists travelling east to the Sunshine Motorway or north to the highway will be required to give way to traffic on the temporary connection road.

Traffic detour and lane closures:

Sunshine Motorway westbound traffic will be detoured on the night of the 16th to facilitate these changes.

Increased construction activities:

- Residents can expect heavy vehicles and machinery to be used in the new work zone that cause increased dust and noise. Reversing beepers and flashing lights are a safety requirement and will be used during work hours.

Other construction activities:

Day works (Mon-Sat, 6am-6pm):

- Landscaping across the project.
- Bridge piling on the new highway alignment, south of Pignata Road.
- Ongoing drainage, earthworks and asphalt activities at various locations across the project.
- Ongoing service relocation works for water, telecommunications and electricity.
- Temporary traffic management on local roads to facilitate works.
- Vegetation removal activities.

Night works (Sun-Thurs, 7pm-5am):

- Ongoing drainage, earthworks and asphalt activities at various locations across the project.
- Temporary traffic management on local roads to facilitate works.
- Installation of bridge girders at the Caloundra Road interchange, including traffic detours.
- Scheduled maintenance activities in various areas.

We thank the local community for your patience and cooperation during these works.

Changes to Bruce Highway northbound access from Sunshine Motorway

Temporary traffic changes from 16 April 2019

A two-way temporary connection road (shown in grey) will connect Sunshine Motorway motorists to the Bruce Highway northbound on-ramp (shown in green). A section of the existing Bruce Highway northbound on-ramp will be closed (shown in red).

Residents and businesses on the western side of the highway will give way to traffic on the temporary connection road when accessing the Sunshine Motorway (eastbound) and highway (northbound) – refer to inset A.
