The Bruce Highway Upgrade – Caloundra Road to Sunshine Motorway (CR2SM) is progressing well. This year, a number of traffic changes will continue to facilitate ongoing construction works.

From Sunday 12 January 2020 (weather permitting), the Bruce Highway northbound and southbound lanes at Caloundra Road interchange will be temporarily closed at night between 8pm and 5am, Sunday to Thursday.

The nightly closures will be in place for approximately two weeks (weather permitting). This will allow for bridge demolition works to be carried out on the old Caloundra Road overpass.

Please refer to the image overleaf.

What to expect:

Traffic detours:

- Traffic travelling along the Bruce Highway northbound will detour via Exit 188 and the northbound Bruce Highway on ramp.
- Traffic travelling along the Bruce Highway southbound will detour via Exit 188A, Caloundra Road, Racecourse Road and the Bruce Highway southbound on ramp.
- Traffic controllers and police will be present to assist motorists if required.
- Motorists are advised to follow directional signage and allow extra travel time.
- Where possible, priority access through the work zone will be given to emergency vehicles.

Audible noise and temporary lighting

- Nearby residents can expect to hear noise during bridge demolition works. Heavy machinery and tools including rock breakers are required to be used to complete the works.
- Lighting towers will be used at night to light the work area.

Working hours

Night works will be required to complete the bridge demolition works.
The project’s working hours are:

- **Night works**: Sunday to Thursday, 7pm to 5am.
- **Day works**: Monday to Saturday, 6am to 6pm.

It is important to note that these activities are dependent on weather conditions.

We thank the local community for your patience and cooperation during these work.

Other construction activities:

Day works (Mon-Sat, 6am-6pm):

- Landscaping.
- Ongoing bridge works at the Sunshine Motorway interchange, Mooloolah River and Sippy Creek.
- Ongoing drainage, earthworks and asphalt activities.
- Ongoing service relocation works for water, telecommunications and electricity.
- Temporary traffic management on local roads to facilitate works.
- Vegetation removal activities.

Night works (Sun-Thurs, 7pm-5am):

- Ongoing drainage, earthworks, asphalt, guardrail and roadside barrier activities.
- Vegetation removal activities.
- Temporary traffic management on local roads to facilitate works.
- Bridge works on the southbound highway carriageway, including traffic detours.
- Scheduled maintenance activities in various areas.
