Notice to motorists

Vegetation removal for western service road in Glenview

The Department of Transport and Main Roads would like to advise that vegetation removal works will be carried out along the western side of the old Bruce Highway and next to Frizzo Road, between the Caloundra Road and Aussie World, from the week commencing 13 January 2020 (weather permitting).

The works will occur over two weeks (weather permitting) and will involve removing vegetation as part of roadworks to construct a new western service road and shared pedestrian and cyclist path (see artist impression below). Fauna spotters will monitor the vegetation removal works to ensure wildlife is protected and relocated, if required.

Please refer to the map overleaf.

Working hours

A combination of day and night works will be undertaken to complete these activities.

Works will be undertaken during the day whenever possible. However due to the nature of the works and their proximity to live traffic, some activities will need to be undertaken at night when traffic volumes are lower, for the safety of motorists and workers.

The project’s working hours are:

- **Night works**: Sunday to Thursday, 7pm to 5am.
- **Day works**: Monday to Saturday, 6am to 6pm.

What to expect

- **Traffic control**: Localised traffic changes including reduced speed limits, road shoulder/lane closures, changes to traffic flow and short-term traffic disruptions. Traffic controllers and police may be in place to assist and direct road users.

- **Audible noise and dust**: Audible noise and possible dust from construction activities, chain saws, mulchers and other heavy machinery can be expected. Reversing beepers and flashing lights are a safety requirement and will be used at all times during work hours.

- **Increased construction traffic**: Residents can expect increased construction traffic travelling near the work zones.

- **Temporary lighting**: Lighting towers will be used to light work areas at night.

- **Access**: Access to residential properties and businesses will be maintained at all times.

It is important to note that these activities are dependent on weather conditions.

*We thank the local community for your patience and cooperation during these works.*
