

Bruce Highway Upgrade Program

Legend

(as at July 2018)

- Completed ●
- Construction ●
- Design ●
- Planning ●
- Committed not started ●

In addition, other works are being carried out along the length of the Bruce Highway:

- **Bruce Highway Safety Package** — aimed at improving the overall safety of the highway, by installing roadside barriers, upgrading intersections, widening shoulders and installing wide centre line treatments and audio tactile line marking.
- **Bruce Highway Pavement Widening** — widening of narrow sections of the Bruce Highway and installing wide centre line for greater separation of opposing traffic, roadside barriers and intersection improvements to enhance road safety.
- **Bruce Highway Overtaking Lanes Packages** — new overtaking lanes are planned for the Bruce Highway to allow more opportunities for overtaking, making it safer for all road users.
- **Bruce Highway Black Spots** — road locations that have a record of large numbers of crashes. There are often common problems at these sites which can be treated with engineering methods, such as new or revised traffic signals, provision of protected right turn facilities, shoulder sealing, road delineation and removal and/or shielding of roadside hazards.
- **Bruce Highway Rest Areas** — new rest areas are planned along the Bruce Highway at locations where all road users can stop their vehicles and achieve effective rest, thereby supporting safety outcomes.

Projects

- 1 Cairns Southern Access Corridor – Stage 4 (Kate Street to Aumuller Street)
- 2 Cairns Southern Access Corridor – Stage 1
- 3 Cairns Southern Access Corridor – Stage 2 (Robert Road to Foster Road)
- 4 Cairns Southern Access Corridor – Stage 3 (Edmonton to Gordonvale)
- 5 Babinda Intersection Upgrade
- 6 Ash and Pine Street Intersection Upgrade
- 7 Innisfail Bypass – Plan and Preserve
- 8 Dallachy Road Flood Immunity Upgrade
- 9 Arnot Creek Bridge
- 10 Ingham to Cardwell Range Deviation – Plan and Preserve
- 11 Cattle and Frances Creek Upgrade
- 12 Townsville Northern Access Intersections Upgrade
- 13 Bruce Highway (Vantassal to Cluden)
- 14 Townsville Ring Road – Stage 4
- 15 Haughton River and Pink Lily Lagoon Upgrade
- 16 Sandy Corner to Collinsons Lagoon Upgrade
- 17 Burdekin River Bridge Upgrade
- 18 Burdekin Deviation – Plan and Preserve
- 19 Burdekin Road Safety Audit Outcome
- 20 Yellow Gin Creek Bridge Upgrade
- 21 Sandy Gully Bridge Upgrade
- 22 Goorganga Plains Upgrade – Plan and Preserve
- 23 Jumper Creek Upgrade
- 24 Knobels Road Intersection Upgrade
- 25 Mackay Northern Access Upgrade
- 26 Mackay Ring Road
- 27 Mackay Southern Access Upgrade
- 28 Sarina Northern Access Upgrade
- 29 Rockhampton Northern Access Upgrade – Stage 1
- 30 Rockhampton Ring Road – Plan and Preserve
- 31 Yeppen Flood Plain Upgrade
- 32 Calliope Crossroad Upgrade
- 33 Cabbage Tree Creek to Carman Road and Back Creek Range Realignment
- 34 Gin Gin Southern Approach Upgrade
- 35 Childers Bypass – Plan and Preserve
- 36 Saltwater Creek Upgrade
- 37 Tinana Overpass
- 38 Tiaro Flood Immunity Upgrade
- 39 Wide Bay Highway Intersection Upgrade
- 40 Cooroy to Curra Section D – Planning and Design
- 41 Cooroy to Curra Section D
- 42 Cooroy to Curra Upgrade – Section C
- 43 Cooroy to Curra Upgrade – Section A
- 44 Cooroy to Curra Planning Project
- 45 Maroochydhore Road Interchange Upgrade – Stage 1
- 46 Caloundra Road to Sunshine Motorway
- 47 Managed Motorways (Gateway Motorway to Caboolture)
- 48 Caboolture to Caloundra Intersection Upgrades
- 49 Pine River to Caloundra Road Interchange Planning
- 50 Pine River to Caloundra Road Interchange Upgrade (Caboolture-Bribie Island Road to Caloundra Road/Steve Irwin Way)
- 51 Deception Bay Road Interchange Upgrade
- 52 Boundary Road Interchange Upgrade
