

# Gooding Drive Roundabout Upgrade (Nerang – Broadbeach Road)

## PROJECT UPDATE

September 2017

### About the project

The Queensland Government is investing \$6.7 million to upgrade the Gooding Drive roundabout at Nerang – Broadbeach Road.

Contractor, CMC, is completing the upgrade to improve both the Gooding Drive roundabout and Palm Meadows Drive intersection.

### Project Update

Works are progressing on the upgrade to Gooding Drive roundabout.

- A 40km/h speed limit reduction is now in place on the roundabout and approaches while construction activity is taking place. Please remember, speed limits and roadwork signage are in place for your safety and are enforceable.
- On-road cycle lanes on Nerang-Broadbeach Road located near the exit and approach to the Gooding Drive roundabout are closed during construction and will re-open in late 2017.
- The slip lane from Nerang-Broadbeach Road southbound to Gooding Drive eastbound will be closed at times between 9:30am to 2:30pm and during night shifts from late August until late September to facilitate service relocations and pavement construction.
- Improvements to the shared paths and culvert underpass are underway to improve drainage and safety.
- The signalisation of the Palm Meadows Drive intersection will commence soon.

### Night Works

The project team will continue intermittent night

*Refer map over page.*

works in September from Sunday to Thursday nights between 7pm and 5am.

Works have been scheduled at night when traffic volumes are lower.

Activities will include the removal and installation of signage and barriers, roadside excavation, lane adjustments, realignment of traffic, line marking, surveying, pavement construction, piling and electrical works.

Works at the Palm Meadows Drive intersection will be done at night.

### What to expect:

- The use of sizeable plant, machinery and vehicles that generate noise.
- Temporary lighting towers and reflective traffic control devices.
- Changes to pedestrian and cyclist paths may be required at times during construction. Please follow directional signage and traffic control.
- Reduced speed limits and increased congestion through the work zones, including the Palm Meadows Drive intersection.
- Drive to conditions, allow extra travel time and choose alternative routes, if possible.

The project team is committed to keeping the local residential community and motorists informed about works.

We appreciate your patience during this time. If you have any queries or concerns, please do not hesitate to contact our team (see overleaf for contact details).

### Keeping informed

To keep up-to-date subscribe to the free SMS or email traffic alert services. For more information:
