

Ipswich Motorway Upgrade: Rocklea to Darra – Stage 1

Start of construction – late October 2017

The information below relates to upcoming Ipswich Motorway upgrade works in your area.

The Department of Transport and Main Roads' contractor Bielby Hull Albem Joint Venture (BHA JV) will start construction of the Ipswich Motorway Upgrade: Rocklea to Darra – Stage 1 project in late October 2017.

Construction of the 3km upgrade will continue through to late 2020, weather, site and construction conditions permitting.

The main focus of upcoming works will be around the Oxley Creek floodplain, as well as on the westbound motorway between Granard Road and Donaldson Road.

The majority of the works will be carried out during the day, Monday to Saturday. However to reduce impacts on through traffic night works will also occur.

What to expect:

- Clearing of vegetation
- Trenching and underground boring in the road reserve
- Drilling and piling
- Temporary lane closures and reduced speed limits
- Traffic changes
- Minor traffic delays
- Installation of portable concrete barriers along the motorway to separate work from traffic
- Pedestrian and cyclist diversions
- Additional lighting, where required
- Noise from reversing beepers, trenching, vehicles, drilling and piling machinery
- Dust, vibration and odour from work activities.

Traffic management including lane control and reduced speed limits will apply during the works. Traffic controllers and construction signage will be in place to safeguard road users and road workers.

We will keep you updated about changes to the motorway configuration such as entry and exit ramp closures.

Work hours

The majority of the works will be carried out during the day between **7am and 5pm, Monday to Saturday**. Night works will be required to reduce impacts on motorway through traffic and will be carried out typically on Sunday to Thursday nights.
