

Ipswich Motorway Upgrade: Rocklea to Darra – Stage 1

August 2019

Upcoming works at the Granard Road interchange, Rocklea.

The Department of Transport and Main Roads advise that works will occur on the Granard Road interchange (see attached map) from **Monday 26 August to early 2020**, weather and construction conditions permitting.

Work hours:

- Day works 7am to 5pm, Monday to Saturday.
- Night works 8pm to 5am, Sunday to Thursday.

These works will affect traffic travelling:

- eastbound and northbound on the Ipswich Motorway exit ramp to Granard Road
- northbound from Granard Road towards Brisbane on the Ipswich Motorway entry ramp
- on Ipswich Road service road adjacent to the interchange.

These day and night works are required for:

- construction of a new left turn from Granard Road on to the Ipswich Road service road towards Suscatand Street
- installation of a new signalised crossing on Ipswich Road service road
- a new cycle link between Ipswich Road service road and Granard Road
- resurfacing works.

Throughout the construction period, local businesses and residents may experience noise, vibration and dust associated with the use of machinery such as jack hammers, excavators and vehicles within the works area. Reverse beepers and flashing lights are being used as a safety requirement and water trucks will control dust. The project team will make every effort to minimise these impacts.

Reduced speed limits and signage advising of the changed traffic conditions will be in place. Access to local businesses and roads will be maintained and all lanes will be reopened to traffic outside of these work hours.

Please obey reduced speed limits and signage advising of the changed traffic conditions in place.

We apologise for the inconvenience and ask for your patience and safety through the roadworks.

If you would like further information about the project, please visit www.tmr.qld.gov.au/rocklea2darra1, email contactus@r2d1.com.au or call 1800 204 990.

Thank you for your cooperation,

The Project Team
