

Mount Lindesay Highway – South Maclean Safety Improvements

March 2019

About the works

The Department of Transport and Main Roads is delivering a state funded \$14 million safety improvement project on the Mount Lindesay Highway at South Maclean.

The project will provide long-term benefits to the community by increasing road safety.

The upgrade will feature:

- A new signalised intersection at the Mount Lindesay Highway/Stockleigh Road intersection. This will provide motorists with safer access to and from the highway and will enable pedestrians to cross the road safely to access nearby bus stops
- Casuarina Road will be extended through to Crest Road
- The existing Mount Lindesay Highway intersections at Casuarina Road and Maclean Street will be removed.
- Access to Casuarina Road and the Sri Selva Vinayakar Temple will be via the new signalised intersection at Stockleigh Road and Crest Road.
- Wharf Street will be extended south to join Stockleigh Road.
- Beryl Parade will be extended to Tully Memorial Park and highway access to the park closed.
- Other safety improvements include right turn lanes, new guardrails and a reduction in the highway speed limit to 80km/h.

Timeframes

This project will begin major construction by mid-2019 and is due for completion by mid 2020. It is important to note that wet weather, contractor and site conditions may change this work schedule.

What to expect

Early works will commence from early March 2019. Work crews will be mobilised on site with machinery within project footprint.

Activities from will include:

- Vegetation clearing and fencing.
- Earthworks to facilitate the upgrade.
- Public utility plant (PUP) service relocations - electricity, water and telecommunications.

Standard work hours and days will be Monday to Friday, 6am to 6pm.

During construction:

- Motorists can expect lane closures, reduced speed limits, increased congestion and construction vehicles entering and exiting from the work zones. Please drive to the conditions and allow extra travel time.
- Residents near to the work zone may experience increased noise, dust and vibration.
- Every effort will be made to minimise construction impacts and monitoring will be carried out during the project.
