

# Footpath works – Queen Street, Southport

**Southport–Burleigh Road upgrade  
Northern section (North Street to Vespa Crescent)**

**March 2016**

**Transport and Main Roads is upgrading a 5-kilometre section of Southport–Burleigh Road (High Street, Ferry Road and Bundall Road) between North Street, Southport and Vespa Crescent, Bundall.**

As a part of these works, TMR's contractor – BMD Constructions – will upgrade a section of Queen Street, Southport. These works will include:

- Construction of a new footpath on the southern side of the road between Oban Lane and Gillian Lane.
- Kerb and channel works and improvements to the existing bus stop on the northern side of the road between White Street and Garden Street.

A water main in this area will also be upgraded.

In the coming weeks, some trees and shrubs in the area of the works will be removed or trimmed.

Most of this vegetation is required to be removed for access to the work area or due to tree canopies over-hanging the project footprint. Further information will be provided before these vegetation works occur.

To keep local traffic moving during construction, two lanes of traffic will be maintained in both directions between 6am and 6pm.

The Queen Street footpath works will start in mid-late 2016 as part of Zone 2 works along High Street and Ferry Road (see map on reverse) and will take approximately 4 weeks to complete. Further information about the works will be provided before they start.

## **Pedestrian access**

Pedestrian access will be maintained around the work zones for local access only, where possible. Signage will be in place to safely direct pedestrians around the work area.

## **Driveway changes**

Some private driveways will be affected by these footpath works. If your driveway is affected, you will be contacted directly by a member of the project team before work starts.

## **Work hours**

Standard work hours are 6am to 6pm Monday to Saturday.

Where there is insufficient room to maintain two lanes of traffic, works will be completed at night under single lane closures.

Night works will occur from 6pm to 6am Sunday to Thursday.
