Toowoomba Second Range Crossing

Heavy vehicle mandate map

It is mandatory for all heavy vehicles* to use the TSRC unless the vehicle has a destination in Toowoomba or is travelling to, or from, the Warwick area.

A local destination in Toowoomba is defined as follows:

- Travelling from the west of Toowoomba (e.g. Warrego Highway west, Gore Highway) for business east of Boundary Street.
- Travelling from the west of Toowoomba for business occurring between Boundary Street interchange and the Warrego Highway east interchange at Helidon Spa.
- Travelling north into Toowoomba on the New England Highway, or entering Toowoomba from the east and travelling south on the New England Highway.
- These vehicles are excluded from the mandating requirement as using the TSRC is not considered an efficient movement for users.

* As per the heavy vehicle definition in Heavy Vehicle National Law Act 2012, any vehicle over 4.5 tonnes GVM.
