<b>Total - Fixed speed cameras - Queensland</b>	<b>343,155</b>	<b>\$ 82,468,113</b>

**Please note**

Data extracted on 23 November 2020 and is subject to change

Data Analysis (DA) allows a three month lag for extracting and providing offence data. This allows for completeness of data and time for the offence notice to be entering into Transport Registration And Integrated Licensing System (TRAILS). The three month lag includes the 28 day period for the alleged offender to pay or respond to the offence notice. Some offence categories will still be understated due to the prolonged time it takes for these matters to be finalised (e.g. Drink Driving offences, Camera detected offences).

The 'face value' for infringement notices issued is calculated by using the fine amount multiplied by the number of infringement notices issued. This is not the amount received by Transport and Main Roads (TMR), as TMR does not receive all payments for infringement notices issued, therefore Data Analysis (DA) is unable to provide data on revenue collected.

Released under RTI DTM
