Hi Glenn

There is a fair amount of history to this section of the IRTC so I propose we meet once you are back from leave to discuss further.

I will send a meeting invite for the week you are back.

Thanks

Andrew

**Subject:** ITRC Northern Connection - Environmental Assessment

Hi,

I wanted to engage the Environment Team to work on my current planning project and was told this will trigger a resource allocation, which I can then organise a meeting with.

There have been previous desk-top environmental reports by Aecom for multiple similar options but no specific flora and Fauna studies that I know of.

I am on leave from Thursday 13<sup>th</sup> April till Monday 24<sup>th</sup> April, but if a resource is allocated I can arrange a meeting for my return.

Kind regards,

**Glenn Crothers**
