Note:

- This list is regularly updated. Ensure that current version is used.
- Conditions of registration apply as per Letter and Certificate of Registration.
- At awarding of contact, registration must be current.
- Registration Levels:
 - Provisional Level:** New Companies and Companies who have not previously undertaken Transport and Main Roads projects and simple noise barrier designs where geometry is substantially predetermined. Registration valid for (12) months.
 - Level 1:** Low volume Companies and not mature enough to undertake complex geometric, traffic, hydraulic, environmental and geotechnical designs. Registration valid for three (3) years.
 - Level 2:** High volume companies with satisfactory long-term performance and complex noise barriers using non-standard structural members. Registration valid for three (3) years.
- The Registration is given on assessment of Technical Capability and Quality Management System.
