

2010 – 2020

10 years of Transfutures Internships

Creating a talent pipeline for the transport and logistics (T&L) industry

“ The opportunity to apply knowledge gained at university in a professional setting was a great experience. I learned so much about port operations and have since secured full-time employment with the port. ”
 – Jasmine Gooda, Intern, Townsville

“ We have proudly hosted 11 Transfutures interns. They all made excellent contributions in our business and we subsequently appointed several to permanent positions. These internships set students up for successful careers and allow employers to develop the future leaders of our industry. ”
 – Michael Thirgood, CEO, BCR Australia
