About this document

This document supplements the Austroads *Guide to Temporary Traffic Management Part 1: Introduction*, which provides an introduction to the topic of Temporary Traffic Management and describes the structure to the 10 Parts of the Guide, the key principles of Temporary Traffic Management and the ongoing governance of the Guide and training by Austroads.

How to use this document

This document is designed to be read and applied together with the Austroads *Guide to Temporary Traffic Management Part 1: Introduction* (AGTTM01-21 Edition 1.1). You must have access to the Guide to understand what applies in Queensland.

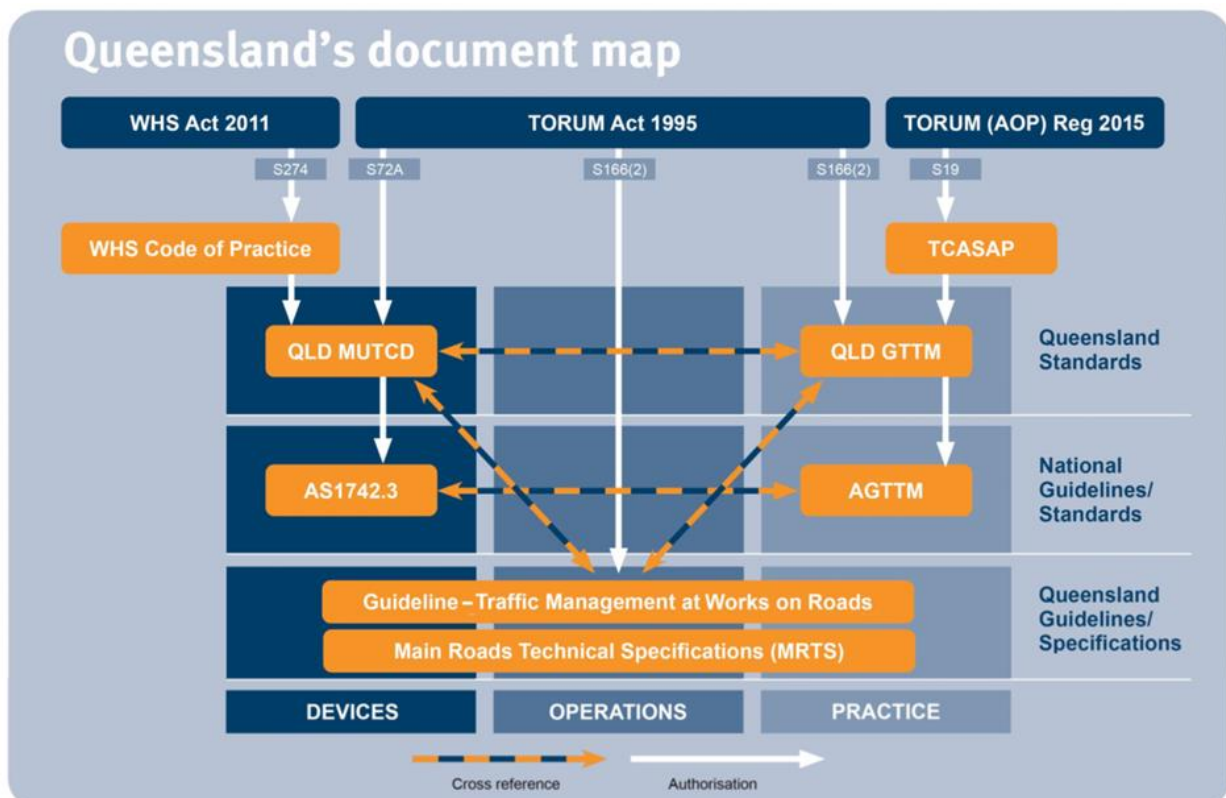

This document:

- sets out how AGTTM01-21 applies in Queensland
- has precedence over AGTTM01-21 when applied in Queensland
- has the same section and clause numbering and headings as AGTTM01-21.

The following table summarises the relationship between AGTTM01-21 and this document:

Applicability	Meaning
Accepted	The Guide section or clause is accepted.
Accepted, with amendments	Part or all of the section or clause has been accepted with additions, deletions or differences.
New	There is no equivalent section or clause in the Guide.
Not accepted	The Guide section or clause is not accepted.

A summary of the documents relevant to TTM practice in Queensland, and their links, is provided following:

3 Definitions / Glossary of terms

Addition

The following additional definitions apply:

Engineer	Refer to Clause 1.3.24 of the Queensland MUTCD Part 3.
Shall	A <i>mandatory</i> condition. Where certain requirements in the design or application of the device are described with the 'shall' stipulation, it is mandatory that, when an installation is made, these requirements be met.

Difference

The following different definitions apply:

Competent person	Refer to Clause 1.3.2 of the Queensland MUTCD Part 3.
May	A <i>permissive</i> condition. Where the word 'may' is used, it indicates that use of the device is conditional, or optional. Usually, no specific requirement for design or application is intended.
Must	A <i>mandatory</i> condition. Where certain requirements in the design or application of the device are described with the 'shall' stipulation, it is mandatory that, when an installation is made, these requirements be met.
Portable Traffic Control Device (PTCD)	A traffic control device that either operates without the need for a traffic controller, or when operated in manual mode by a traffic controller, shall be operated by using a handheld remote control (wireless or wired) and the traffic controller shall be located a safe distance from traffic.
Should	Indicates a <i>recommendation</i> . Where the word 'should' is used, it is considered to be recommended use, but not mandatory. Any recommendation that is not applied must be based on sound traffic engineering judgement and documented.
Traffic controller	Refer to Clause 1.3.19 of the Queensland MUTCD Part 3.
