TMR Community Media Alert

Ollera Creek Bridge Update

The temporary Ollera Creek Bridge, north of Townsville, will close at 6:00pm on Saturday, February 8 to allow for further restoration.

The closure allows Transport and Main Roads RoadTek crews a clear run at rebuilding the bridge to a standard that allows it to be safely opened by mid-week, weather permitting.

Emergency workers and accredited people will complete all essential travel into or out of the area prior to 6pm, as no access will be available for vehicles.

The nearby rail bridge remains under police management.

Essential access to assist the Ingham community can be provided by Queensland Rail via a small bus on the rail tracks for limited groups of people.

The Bruce Highway between Cardwell and Ingham near the Seymour River has reopened, only for emergency services vehicles, local residents and essential workers.

TMR continues to urge motorists to visit QLDTraffic for all traffic alerts, road closures and condition updates for major roads in Queensland. Motorists can also download the QLDTraffic app or call 13 19 40.
