SAFETY IMPROVEMENTS SET TO START AT LOGAN CENTRAL INTERSECTION

The Department of Transport and Main Roads will soon commence works to make Springwood Connection Road at the Kingston Road and Wembley Road intersection safer.

The project is being funded under a joint Australia and Queensland Government investment of \$511.5 million as part of the national Road Safety Program.

This safety upgrade will include a dedicated off-road bike riding path, signalised pedestrian crossings on the left-turn slip lanes, a signalised crossing across Kingston Road and asphalt renewal works.

Construction is expected to begin in late July 2025 and is expected to take approximately five months to complete, weather and construction conditions permitting.

Motorists will be kept informed of any impacts during construction by digital Variable Messaging Signs, letterbox drops and updates to the www.qldtraffic.qld.gov.au where road users can plan their journey.

For more information visit www.tmr.qld.gov.au.
