Traffic changes on Caboolture-Bribie Island Road

Works are underway to upgrade Caboolture-Bribie Island Road to a four-lane carriageway between Old Toorbul Point Road to Saint Road, Ningi.

Following major construction commencing in mid-March 2025, the duplication of the westbound carriageway from east of Old Toorbul Point Road to just east of Saint Road is now complete.

To facilitate works on the existing carriageway, two-way traffic will be temporarily redirected onto the newly constructed westbound lanes.

The traffic switch is expected to take place on 18 August 2025, weather and construction conditions permitting. To minimise disruptions the traffic switch will be done at night, when traffic volumes are lower.

Leading up to the traffic switch, night works will be undertaken to prepare temporary ramps to connect the new westbound carriageway, ensuring a smooth transition for motorists.

Traffic controllers will be onsite to assist motorists with variable message signs and traffic management measures in place to direct traffic onto the newly constructed carriageway.

This traffic switch will be in place for approximately three months, weather and construction conditions permitting.
