*If the Carmichael Coal mine goes ahead, Adani will pay every cent in royalties due to taxpayers.*

*Like every other resources project, Queensland taxpayers will benefit from royalty payments from the mine if it proceeds.*

*There has been **no** decision on the royalty regime for the Carmichael mine.*

*The Premier has been clear — a Queensland Labor Government will **not** invest taxpayer funds into the Carmichael Coal project.*

*The Government is determined to encourage increased investment, increased employment, increased royalty revenue and increased exports from our resources sector.*

*The Government wants to give greater certainty to investors, so we can get projects going and create jobs for Queenslanders.*

*The Government wants a standardised approach for major projects in the Galilee and Surat basins and the North West Minerals Province, when it comes to royalties, to maximise the benefit for Queensland in terms of investment, jobs, royalties and exports.*

## **Carmichael Coal (Adani) – election commitments**

The Government keeps its commitments.

We promised at the 2015 election that and I quote:

*“Queensland Labor does not support the Newman Government’s economically and environmentally risky secret deal to fund Adani’s dredging operation to secure their expansion of Abbot Point and the rail line construction for their proposed mine even before financial viability and surety has been secured.*

*“Labor will not spend taxpayer money to build a rail line for a private commercial project. As Adani Australia’s Chief Executive Officer has said “This project will stand alone on its feet always and every project is done on the economics of the project itself.”*

*“Adani must ensure its project is viable in an open, competitive marketplace. Labor will not do any secret deals.”*

End quote.

The Government is honouring this commitment.

The Government is also honouring its commitment to Queensland to create jobs and opportunities.

## **Resource sector - Palaszczuk Government approach**

The Palaszczuk Government is determined to tackle unemployment in regional Queensland.

Since the 2015 election, an extra 59,000 jobs have been created across Queensland.

Our programs - Back to Work, Skilling Queenslanders for Work and Works for Queensland – are giving thousands of Queenslanders the opportunity for employment in regional Queensland.

The Palaszczuk Government is developing new industries, including large-scale renewables and biofutures, to create new jobs.

The Palaszczuk Government is strengthening existing key industries, including agriculture, tourism and resources.

In terms of resources, the Government is working to develop a policy framework for greenfield projects in the Galilee and Surat Basins and the North West Minerals Province.

This approach is about developing these areas, attracting new investment, creating new jobs and securing royalty payments.

To attract new investment and new jobs, we will be providing certainty for business in the policy for the development of these basins.

The policy framework will be determined through our Cabinet process.

## **Carmichael Coal (Adani) - LNP record**

### Abbot Point

The LNP Government supported **3 million cubic metres** of dredging for the Abbot Point terminal **to be dumped at sea** in the Great Barrier Reef Marine Park.

After public pressure the LNP caved in and instead decided to dump the spoil on the environmentally sensitive Caley Valley Wetlands.

The LNP even wanted to provide a public subsidy for the dredging activity but in their typical secretive way they refused to provide the public with details of this subsidy offer.

### Rail line

The LNP Government wanted to give up to \$455 million of taxpayers' money to build the rail line for this project.

The Palaszczuk Government promised NOT to use taxpayers' money for the rail line.

Instead, we have invested in regional Queensland infrastructure, such as North Queensland Stadium and Cairns Special School, and programs, such as Works for Queensland, to create jobs and improve services.

**Subject:** FOR YOUR INFORMATION -- Cabinet decision on new resource policy for Galilee and Surat Basins and North West Minerals Province

Please find attached a joint statement by the Premier, Deputy Premier and Treasurer regarding the new policy framework for the Galilee and Surat Basins and North West Minerals Province following the Cabinet meeting yesterday afternoon.

The Premier, Deputy Premier and Minister Lynham have provided media comment on Cabinet's decision.

As was said at the press conference, the priority for the Government was to ensure the royalties are paid in full with interest and to secure additional jobs and investment for Queensland from future greenfield developments in these areas.

The media conference was an opportunity to contrast the Government's approach (and its delivery of its 2015 election commitments, which are included with the media statement) and the performance of the LNP, which was to permit the dumping of dredged spoil in Great Barrier Reef Marine Park then Caley Valley wetlands, contribute \$455 million to the construction of the rail line, and not require full payment of royalties.

Please let me know if I can provide any further information or assistance.

Kind regards

Kirby Anderson

### JOINT STATEMENT

Premier and Minister for the Arts  
The Honourable Anastacia Palaszczuk

Deputy Premier, Minister for Transport and Minister for Infrastructure and Planning  
The Honourable Jackie Trad

Treasurer and Minister for Trade and Investment  
The Honourable Curtis Pitt

### Queensland jobs, investment and royalties boost from new resource policy

The Palaszczuk Government has unveiled a development policy that will deliver the best deal for Queenslanders and opens up the state to more jobs, more investment and more royalties.

Premier Anastacia Palaszczuk said the policy would unlock development in the Galilee and Surat Basins and the North West Minerals Province and new jobs and new business opportunities.

“State Cabinet has unanimously agreed to a new policy approach for the future development of the Galilee and Surat Basins and the North West Minerals Province,” Ms Palaszczuk said.

“Under this new policy, the Adani Carmichael mine will pay every cent of royalties in full.

“There will be no royalty holiday for the Adani Carmichael mine.

“Opening up these three regions for development has the potential to support thousands of new jobs that are needed in regional centres along the coast as well as in outback Queensland.

“This will squeeze every dollar and every job out of these projects.

“My sole focus this week has been to lead negotiations that ensure Queenslanders get the best deal that will see more jobs and more money flowing into our state.

“This is the right policy that will provide certainty and deliver jobs, royalties and opportunities for years to come.

“It will unlock these resource areas so that projects can proceed and deliver thousands of new jobs for regional Queenslanders.

“The same approach will apply to all greenfield projects in these Basins and the North West Minerals Province such as the Adani Carmichael Coal project.

“Opening up these three regions for development has the potential to support thousands of new jobs that are needed in regional centres along the coast as well as in outback Queensland.”

Deputy Premier Jackie Trad said the Palaszczuk Government’s policy delivered on Labor’s election commitments.

“All royalties will be paid and if they are deferred they will be paid with interest and with security of payment in place,” Ms Trad said.

“That’s more money for our state to spend on infrastructure, renewables, health and education.

“Consistent with our election commitments, cabinet has determined that any NAIF funding needs to be between the Federal Government and Adani.

“There will be a new financial assurance model that ensures operators comply with environmental conditions and cover rehabilitation costs.”

Treasurer Curtis Pitt said the framework provides investor certainty and encourages new development and business opportunities in the Basins and the North West Minerals Province.

“Investors accessing the new resources framework will be required to provide jobs, common-user infrastructure and have a positive impact on the state’s finances,” Mr Pitt said.

“This revised model will apply to future resource development proposals in the three regions and will replace ad hoc arrangements negotiated in the past.

“It is a transparent policy framework that will apply equally to project proponents looking to invest in these under-developed resource regions.”

All greenfield projects approved after the completion of comprehensive environmental impact assessments by State and Commonwealth agencies will abide by the following principles:

- all royalties due to the State are paid over the term of any agreement (inclusive of interest foregone costs), with security of payment and no adverse budget impact to the state;
- any agreement with a proponent will not involve the direct expenditure of public funds in the project or in directly-related economic infrastructure for that project (noting that Government Owned Corporations (GOCs) may still supply economic infrastructure on commercial terms to resource project proponents);
- the provision by the proponent of third party access infrastructure or other acceptable economic infrastructure to the State; and
- projects must have significant regional employment, generation of royalties and economic opportunity benefits, such as the potential to assist in opening up undeveloped resource basins.

**Media contacts:** Kerryn Manifold- Premier's Office - 0428 510 973 | Anna Jabour- Deputy Premier's Office- 0429 890 942

Commitment at the 2015 State election:

*“Queensland Labor does not support the Newman Government’s economically and environmentally risky secret deal to fund Adani’s dredging operation to secure their expansion of Abbot Point and the rail line construction for their proposed mine even before financial viability and surety has been secured. Labor will not spend taxpayer money to build a rail line for a private commercial project. As Adani Australia’s Chief Executive Officer has said ‘This project will stand alone on its feet always and every project is done on the economics of the project itself.’ Adani must ensure its project is viable in an open, competitive marketplace. Labor will not do any secret deals.”*

### JOINT STATEMENT

Premier and Minister for the Arts

The Honourable Anastacia Palaszczuk

Deputy Premier, Minister for Transport and Minister for Infrastructure and Planning

The Honourable Jackie Trad

Treasurer and Minister for Trade and Investment

The Honourable Curtis Pitt

### Queensland jobs, investment and royalties boost from new resource policy

The Palaszczuk Government has unveiled a development policy that will deliver the best deal for Queenslanders and opens up the state to more jobs, more investment and more royalties.

Premier Anastacia Palaszczuk said the policy would unlock development in the Galilee and Surat Basins and the North West Minerals Province and new jobs and new business opportunities.

"State Cabinet has unanimously agreed to a new policy approach for the future development of the Galilee and Surat Basins and the North West Minerals Province," Ms Palaszczuk said.

"Under this new policy, the Adani Carmichael mine will pay every cent of royalties in full.

"There will be no royalty holiday for the Adani Carmichael mine.

"Opening up these three regions for development has the potential to support thousands of new jobs that are needed in regional centres along the coast as well as in outback Queensland.

"This will squeeze every dollar and every job out of these projects.

"My sole focus this week has been to lead negotiations that ensure Queenslanders get the best deal that will see more jobs and more money flowing into our state.

"This is the right policy that will provide certainty and deliver jobs, royalties and opportunities for years to come.

"It will unlock these resource areas so that projects can proceed and deliver thousands of new jobs for regional Queenslanders.

"The same approach will apply to all greenfield projects in these Basins and the North West Minerals Province such as the Adani Carmichael Coal project.

"Opening up these three regions for development has the potential to support thousands of new jobs that are needed in regional centres along the coast as well as in outback Queensland."

Deputy Premier Jackie Trad said the Palaszczuk Government's policy delivered on Labor's election commitments.

"All royalties will be paid and if they are deferred they will be paid with interest and with security of payment in place," Ms Trad said.

"That's more money for our state to spend on infrastructure, renewables, health and education.

"Consistent with our election commitments, cabinet has determined that any NAIF funding needs to be between the Federal Government and Adani.

"There will be a new financial assurance model that ensures operators comply with environmental conditions and cover rehabilitation costs."

Treasurer Curtis Pitt said the framework provides investor certainty and encourages new development and business opportunities in the Basins and the North West Minerals Province.

"Investors accessing the new resources framework will be required to provide jobs, common-user infrastructure and have a positive impact on the state's finances," Mr Pitt said.

"This revised model will apply to future resource development proposals in the three regions and will replace ad hoc arrangements negotiated in the past.

"It is a transparent policy framework that will apply equally to project proponents looking to invest in these under-developed resource regions."

All greenfield projects approved after the completion of comprehensive environmental impact assessments by State and Commonwealth agencies will abide by the following principles:

- all royalties due to the State are paid over the term of any agreement (inclusive of interest foregone costs), with security of payment and no adverse budget impact to the state;
- any agreement with a proponent will not involve the direct expenditure of public funds in the project or in directly-related economic infrastructure for that project (noting that Government Owned Corporations (GOCs) may still supply economic infrastructure on commercial terms to resource project proponents);
- the provision by the proponent of third party access infrastructure or other acceptable economic infrastructure to the State; and
- projects must have significant regional employment, generation of royalties and economic opportunity benefits, such as the potential to assist in opening up undeveloped resource basins.

**Media contacts:** Kerryn Manifold- Premier's Office - 0428 510 973 | Anna Jabour- Deputy Premier's Office- 0429 890 942

Commitment at the 2015 State election:

*"Queensland Labor does not support the Newman Government's economically and environmentally risky secret deal to fund Adani's dredging operation to secure their expansion of Abbot Point and the rail line construction for their proposed mine even before financial viability and surety has been secured. Labor will not spend taxpayer money to build a rail line for a private commercial project. As Adani Australia's Chief Executive Officer has said 'This project will stand alone on its feet always and every project is done on the economics of the project itself.' Adani must ensure its project is viable in an open, competitive marketplace. Labor will not do any secret deals."*

**Subject:** Adani - Townsville Bulletin

Hey all,

I'm looping in local MPs too. The Townsville Bulletin asked a number of questions regarding Adani, mostly based on the story in the Australian. We've provided the below response. They came back to us asking for an extra line on why the LNP have been slamming the DP regarding her support and we provided the extra line below as well.

They did ask when royalties would next be discussed by the govt and I verbally let Domanni know to check in with Prens which she was fine with.  
Let me know if you need anything else.

**Please attribute to the Deputy Premier and Minister for Infrastructure Jackie Trad:**

I have visited regional Queensland countless times since coming to government and I am acutely aware that Townsville needs jobs.

I am proud to be part of a government that's focussed on job creation for Queenslanders regardless of where they live by encouraging growth in our traditional and emerging industries.

I have placed on record my support for Adani's development of the Carmichael Mine and as a government we have progressed all the necessary state approvals for the project to proceed.

I am passionate about jobs and ensuring that all Queenslanders share in our economic prosperity – particularly regional Queenslanders.

Since becoming the Deputy Premier, I have progressed projects and funding for Townsville including the:

- first ever City Deal for the region
- channel widening at the Port
- Townsville Eastern Access Rail Corridor
- Townsville CBD Waterfront Promenade
- Airport Apron
- Riverway Drive upgrade
- \$21 million for 51 projects in Townsville through Works for Queensland and
- the much needed upgrade to the paediatric ward at the Townsville Hospital.

**Please attribute to the Deputy Premier and Minister for Infrastructure Jackie Trad:**

The LNP are simply muckraking and trying to hide that fact that they have no plan to deliver jobs for regional Queensland.

**To:** Anna Jabour <Anna.Jabour@ministerial.qld.gov.au>

**Subject:** Townsville Bulletin - Adani inquiry

Hi Anna,

Thanks for that. Below are the questions as discussed.

1. Jackie has stated her government's support for Adani and how the Labor Government has gone through the appropriate statutory processes, but could the Deputy Premier please confirm whether or not she supports the mine herself?
2. Under Anna Bligh, when Jackie was her adviser, the government welcomed Adani to open-up the Galilee Basin almost seven years ago. Has Jackie's stance on Adani changed since then?
3. Is Jackie concerned for her seat in Brisbane at the next election? Is that why her support for Adani has changed?
4. When will the issue of royalties next be discussed by the Labor Government?
5. Is Jackie confident that Adani will still go ahead?
6. Has Jackie personally spoken to local residents across Central and North Queensland who are desperately seeking a job with Adani? If yes, what was the general sentiment?
7. Why couldn't the Labor Government mention the word "Adani" for almost two hours in Parliament yesterday morning?
8. Local business leaders in Townsville have stressed that without this mine, both our city which has a struggling economy and other regional centres, will be set back by decades. What is going to happen to Townsville if Adani doesn't go ahead?
9. Any further comments you wish to add.

My deadline is 4.30pm today.

Thanks Anna!

## **Resource sector - Palaszczuk Government approach**

The Palaszczuk Government is determined to tackle unemployment in regional Queensland.

Since the 2015 election, an extra 59,000 jobs have been created across Queensland.

Our programs - Back to Work, Skilling Queenslanders for Work and Works for Queensland – are giving thousands of Queenslanders the opportunity for employment in regional Queensland.

The Palaszczuk Government is developing new industries, including large-scale renewables and biofutures, to create new jobs.

The Palaszczuk Government is strengthening existing key industries, including agriculture, tourism and resources.

In terms of resources, the Government is working to develop a policy framework for greenfield projects in the Galilee and Surat Basins and the North West Minerals Province.

This approach is about developing these areas, attracting new investment, creating new jobs and securing royalty payments.

To attract new investment and new jobs, we will be providing certainty for business in the policy for the development of these basins.

The policy framework will be determined through our Cabinet process.

## **Carmichael Coal (Adani) – election commitments**

The Government keeps its commitments.

We promised at the 2015 election that and I quote:

*“Queensland Labor does not support the Newman Government’s economically and environmentally risky secret deal to fund Adani’s dredging operation to secure their expansion of Abbot Point and the rail line construction for their proposed mine even before financial viability and surety has been secured.*

*“Labor will not spend taxpayer money to build a rail line for a private commercial project. As Adani Australia’s Chief Executive Officer has said “This project will stand alone on its feet always and every project is done on the economics of the project itself.”*

*“Adani must ensure its project is viable in an open, competitive marketplace. Labor will not do any secret deals.”*

End quote.

The Government is honouring this commitment.

The Government is also honouring its commitment to Queensland to create jobs and opportunities.

## **Carmichael Coal (Adani) - LNP record**

### Abbot Point

The LNP Government supported **3 million cubic metres** of dredging for the Abbot Point terminal **to be dumped at sea** in the Great Barrier Reef Marine Park.

After public pressure the LNP caved in and instead decided to dump the spoil on the environmentally sensitive Caley Valley Wetlands.

The LNP even wanted to provide a public subsidy for the dredging activity but in their typical secretive way they refused to provide the public with details of this subsidy offer.

### Rail line

The LNP Government wanted to give up to \$455 million of taxpayers' money to build the rail line for this project.

The Palaszczuk Government promised NOT to use taxpayers' money for the rail line.

Instead, we have invested in regional Queensland infrastructure, such as North Queensland Stadium and Cairns Special School, and programs, such as Works for Queensland, to create jobs and improve services.

**Subject:** Statement regarding Adani

Dear Caucus Members,

Please note the below statement:

***State Cabinet has unanimously agreed to a new policy approach for the future development of the Galilee and Surat Basins and the North West Minerals Province.***

***Under this new policy, the Adani Carmichael mine will pay every cent of royalties in full.***

***There will be no royalty holiday for the Adani Carmichael mine.***

***Opening up these three regions for development has the potential to support thousands of new jobs that are needed in regional centres along the coast as well as in outback Queensland.***

***More details of the new policy will be released in due course.***
