	Other	94

This Data has been compiled from the Program Delivery and Operations (PD&O) Small Claims Database used by the Districts Claims Officers.

The relevant legislation covering claims is:

1. The Civil Liability Act 2003 - TMR is responsible for the management and maintenance of TMR owned property which, for the purposes of this manual, includes the road reserve as well as vacant land. Where TMR's actions, or failure to take action, in relation to TMR property cause third parties damage, they may be able to claim compensation. These claims are termed as "Against TMR" as it is an external party seeking compensation from TMR.

2. The Transport Infrastructure Act 1994 (TIA) - TMR is responsible for the management, construction, maintenance and operation of State-controlled infrastructure. Where a person causes damage to TMR infrastructure, it may be possible for the department to seek compensation for repair costs. These claims are termed as "By TMR" as the department is seeking compensation for costs incurred to repair the damage to our infrastructure. The Transport Operations (Road Use Management) Act 1995 – section 51g and 51i (spills and debris); Transport Operations (Road Use Management – Road Rules) Regulation 2009 – section 293 and Common Law also apply to claims by TMR
