

Department of Transport and Main Roads
Noting Brief
MBN28061

To: Minister for Transport and Main Roads

SUBJECT: Point-to-point camera sites	ROUTINE:
--	-----------------

Summary

- Point-to-point (P2P) camera sites in Queensland are primarily prioritised on the basis of speed related crash history.
- **Attachment A** confirms the 12 priority locations which includes consideration of both crash history, corridor suitability—length—and technical feasibility.
- In August 2025, P2P camera installations will commence:
 - on the Pacific Motorway between Beenleigh (Exit 35), Oxenford (Exit 57) and Smith Street (Exit 66)
 - on the Gateway Motorway between Deagon Wetland Reserve and Wyampa Road.
- Testing and commissioning are anticipated to take up to six months with P2P enforcement projected to commence in mid-2026 on both the Pacific and Gateway motorways.
- **Attachment A** details four sections of the Bruce Highway for P2P camera installation. Delivery of the Bruce Highway P2Ps will be impacted by civil works associated with the Bruce Highway Safety Package and will be coordinated for delivery accordingly.
- TMR will deploy speed camera tracked platforms in support of roadworks associated with the Bruce Highway safety package.

Background

- In 2016–17, the Queensland Police Service (QPS) issued tenders to market for the installation of P2P camera systems on the Pacific and Gateway motorways.
- In July 2024, these contracts shifted to TMR as the result of machinery-of-Government changes transferring the QPS Road Safety Camera Office to TMR.

Issues and Suggested Approach

- Updated analysis confirms nine of the 12 previously selected P2P sites remain in the top 100, validating the integrity of the original recommended sites (**Attachment A**).
- While three previously selected locations for P2P have reduced in ranking, following full review of all ranked sections of road, no higher ranked sections were deemed suitable for P2P enforcement due to their short distances, road design or traffic leakage points.

Financial Implications

- Funding would need to be sourced to support the procurement and implementation of mobile P2P enforcement trailers.

Consideration of the *Human Rights Act 2019* (HR Act)

- The HR Act has been considered in the context of this brief.

Consultation with Stakeholders

- Internal consultation has occurred with various business areas in TMR to support the resolution of the iMap data issue.

Employment

- There is no employment impacts associated with this matter.

Media

- The Camera Detected Offence Program (CDOP) remains a frequent topic of media commentary, often attracting criticism about the intent of the program.
- Online groups continue to report the CDOP is about raising revenue, and in some cases have encouraged attacks on enforcement equipment.

Queensland Point-to-Point Delivery Priority (Attachment A)

Key Go-Live Priorities

- Conduct all works prior to installation (camera configuration, camera tests and survey planning).
- One Install - Minimise traffic disruption by ensuring site installation achieved with a single road closure.
- Expedite certification documentation.
