## TMR Community Media Alert

---

### Consultation for D'Aguilar Highway upgrade now open

The Department of Transport and Main Roads (TMR) is seeking community feedback on plans to upgrade the D'Aguilar Highway, south of Nanango, with the consultation period now open.

TMR is investigating options for widening and strengthening the section of highway between South Nanango and South Street in Nanango township, as well as implementing road safety treatments to reduce serious crashes.

Road safety treatments being considered include audio tactile line marking, reflective pavement markers, wide centre lane treatments, installation of roadside barriers, clearing of roadside hazards and intersection improvements.

Key considerations will include road safety and efficiency improvements, road design standards, value for money outcomes, social factors (including impacts on property, environment, heritage and community amenity) as well as the ability to address additional issues identified through community consultation.

Community feedback will help support the business case for funding this upgrade in the future.

The planning for this project comes under the Queensland Government's State Road Network Upgrades (SRNU) program aimed at improving safety, efficiency and pavement resilience for principal freight routes.

Providing feedback is a quick and easy process and can be done online at <https://www.yoursay-projects.tmr.qld.gov.au/daquilar-highway-upgrade> or by emailing [bundaberg.office@tmr.qld.gov.au](mailto:bundaberg.office@tmr.qld.gov.au) or by phoning 1300 728 390.
