

## Inclusive Precincts Guide

### Amendment register

The register captures the amendments to Inclusive Precincts Guide.

#### March 2026 – Initial release

Chapter / Section	Change type	Description of change
Initial release	New	<ul style="list-style-type: none"> <li>The Inclusive Precincts Guide has been developed to provide a comprehensive overview of best-practice design features for creating accessible and inclusive public transport precincts.</li> </ul> <p>Public transport precincts are the public areas within and surrounding transport nodes, including bus stops and stations, train and light rail stations, ferry terminals, taxi ranks, and other supporting infrastructure and premises.</p> <p>The guide supports a shift beyond traditional, asset-based approaches to accessibility by promoting a more integrated, precinct-wide perspective. It encourages planners, designers, and practitioners to consider how individual elements within a precinct work together to deliver a seamless, inclusive, and connected transport experience for all users.</p>
