SPEED LIMIT REVIEW CHECKLIST FORM							
SITE DETAILS RED TEXT = Engineer undertaking SLR to complete GREEN TEXT = Responsible Officer to complete							
Road Authority:	Department of Transport and Main Roads District Date of Assessment:14/10/22						
	☑ Local Government Agency Assessor: John Smith				Smith		
Road Name: NA – Parkland Shared Path LGA Name: Parkland City Council							
Road Number (if applicable):					gion		
Suburb: Parkland Reference: 221014 Parkland Shared Path – 01							
			Chainage or	ordinates degrees)			
		Location or Reference Point	Distance	Latitude	Longitude		
Start		Train Station Access Road	0	-27.462062	153.016542		
End	S	hared Path Access to Top Road	0.23	-27.460521	153.015484		

Existing Speed Limit (km/h):NA Segment Length (km):

Aerial Imagery of Speed Zone:

.....

.....

STAGE 1 – NEED FOR REVIEW IDENTIFIED?

Detail circumstances that lead to a speed limit review being requested (*QRSTUV GSM Section 3.5.1*): Community request to provide a posted 25km/h speed for PMD's.

Desktop Review - Detail circumstances that require the need for a full speed limit review to be undertaken: CBSL request for change in shared path speed would indicate a need for a full SLR.

STAGE 2 – CRITERIA BASED SPEED LIMIT (CBSL) ASSESSMENT

Is the road segment a foreshore? Refer to QRSTUV GSM 1. Section 4.3.1 for definition of foreshore \boxtimes No – go to Question 2 □ Yes –refer to QRSTUV GSM Section 4.3.1 and go to

Stage 6 (Other considerations)

- Is the road considered a car park or access driveway? 2. \boxtimes No – go to Question 4 □ Yes – go to Question 3
- 3. In the car park, are traffic calming devices present? No –adopt 20km/h speed limit and go to Stage 6

(Engineer Recommendation) □ Yes – adopt 10 km/h speed limit and go to stage 6 (Other considerations)

4. Is the road segment a Shared Zone? Refer to QRSTUV GSM Section 4.3.2 for definition of Shared Zone ⊠ No – go to Question 5

□ Yes – refer to Section 4.3.2 and go to Stage 6 (Other considerations)

Is the road unsealed or have a narrow seal? Refer to 5. QRSTUV GSM Section 4.3.3 for definition of unsealed road or road with a narrow seal. ⊠ No – go to Question 6

□ Yes – refer to QRSTUV GSM Section 4.3.3 and go to Stage 6 (Other considerations)

6. Is the speed zone a High Active Transport User Area (HATUA)? Refer to QRSTUV GSM Section 4.3.4 for definition of HATUA ⊠ No – go to Question 7

□ Yes – refer to QRSTUV GSM Section 4.3.4 and go to Stage 6 (Other considerations)

7. Is the speed zone an Urban Local / Access Street? Refer to QRSTUV GSM Section 4.3.5 for Urban Local / Access Street definition

☑ No – go to Question 8

□ Yes – refer to QRSTUV GSM Section 4.3.5 and go to Stage 6 (Other considerations)

8. Is the speed zone considered to be a footpath or shared path with a different posted speed to the road? Refer to QRSTUV GSM Section 4.3.6 for Footpath or shared path speed zones definition

□ No – CBSL do NOT apply, go to Stage 3 (Risk Assessed Speed Limit) and Stage 4 (Speed Data Speed Limit)

Yes – refer to QRSTUV GSM Section 4.3.6 and go to Stage 6 (Other considerations)

STAGE 3 - RISK ASSESSED SPEED LIMIT (RASL) ASSESSMENT

Crash Risk Rating (CRR)					Infrastructure Risk Rating (IRR)		
DCA Group	Description	(L) FSI Index	(H) FSI Index	No. Casualty Crashes	Road Attribute	Category	
1	Intersection, from adjacent approaches	0.46	0.73		Road stereotype		
2	Head-on	0.85	1.44		Alignment		
3	Opposing vehicles, turning	0.53	0.84		Sealed shoulder width		
4	Rear-end	0.25	0.37		Lane width		
5	Lane change	0.34	0.42		Roadside hazard risk - left side		
6	Parallel lanes, turning	0.36	0.59		Roadside hazard risk - right side		
7	U-turn	0.39	0.57		Land use		
8	Entering roadway	0.38	0.71		At-grade intersection density		
9	Overtaking, same direction	0.50	0.65		Access density		
10	Hit parked vehicle	0.43	0.81		Traffic volume		
11	Hit train	1.07	0.90		IRR Score		
12	Pedestrian	0.60	0.98		•		
13	Permanent obstruction on carriageway	0.28	0.53		Road Risk Metric	(RRM)	
14	Hit animal	0.53	0.55		CRR Band		
15	Off carriageway, on straight	0.54	0.70		IRR Band		
16	Off carriageway, on straight, hit object	0.60	0.66		RRM		
17	Out of control, on straight	0.55	0.73				
18	Off carriageway, on curve	0.65	0.59		Road Classifica	tion	
19	Off carriageway, on curve, hit object	0.65	0.71		Environmental Context Class		
20	Out of control, on curve	0.67	0.66		Functional Classification		
21	Other	0.51	0.63				
Est. FSI per 10 ⁸ VKT		•			Risk Assessed Speed Limit (k	m/h)	
	Crash Data Period	(5 years)				1	
From (ind	clusive):						
To (inclu	sive):				1		

comments (if	. ,				

STAGE 4 - SPEED DATA SPEED LIMIT (SDSL) ASSESSMENT

Mean Speed (km/h):	Speed Data Conforms with Speed Limit (Y/N) :
Upper Limit of 15km/h Pace Speed (km/h):	Speed Limit Suggested by Speed Data (km/h):
Percentage within Pace Speed (%):	
Speed Data Speed Limit (km/h):	
Additional comments (if required) (e.g. dates, times, locations and d	lescriptions of speed data collected):

STAGE 5 – ASSESSED SPEED CONSIDERATION

- 1. Does SDSL Correlate with RASL?
 - \Box No go to Question 2
 - $\hfill\square$ Yes consider correlated Speed Limit and go to Stage 6 (Other considerations)
- Is SDSL lower than RASL?
 No consider RASL & consider speed management activities and go to Stage 6 (Other considerations)
 Yes consider SDSL and go to Stage 6 (Other considerations)

Considered Speed Limit (km/h):

Additional comments related to speed management activities (if required) (QRSTUV GSM Section 6.1):

STAGE 6 – OTHER CONSIDERATIONS

Are there other site specific circumstances that may apply or exist that could affect the selection of an appropriate speed limit? (refer to *QRSTUV GSM Section 7* for relevant guidance, sub-sections as per below):

	Ye	es N	lo
Is there school activity in the speed zone? (Section 7.1)			\triangleleft
Is a variable speed limit sign appropriate? (Section 7.2)			\triangleleft
Is a dual speed zone required? (Section 7.3)			\triangleleft
Is the road a traffic carrying road through strip-shopping centres or commercial area? (Section	□ 7.4) □		\triangleleft
Is the road a speed zone on an arterial road through a rural town? (Section 7.5)			\triangleleft
Is there a high crash rate? (Section 7.6)			\triangleleft
Is there a high crash rural intersection? (Section 7.7)			\triangleleft
Is the road being considered for a 110km/h speed limit? (Section 7.8)			\triangleleft
Does the road have a rough surface? (Section 7.9)			\triangleleft
Is there a temporary speed limit being proposed? (Section 7.01)			\triangleleft
Is the speed limit for a roundabout? (Section 7.11)			\triangleleft
Is the road mountainous? (Section 7.12)			\triangleleft
Is the road a service road? (Section 7.13)			\triangleleft
Is there a signalised intersection on the road section? (Section 7.14)			\triangleleft
Is the road section an on or off ramp? (Section 7.15)			\triangleleft
Is the road section a laneway? (Section 7.16)			\triangleleft
Is the speed limit proposed to be offset? (Section 7.17)			\triangleleft
Are there other circumstances to consider? (Section 7.18)			\triangleleft

Assessed Speed Limit (km/h):

Additional comments related to other considerations (if required, particularly noting if there is more than one speed limit, such as for a school zone, variable speed limits, dual speed limits or path speed limits):

STAGE 7 – ENGINEER RECOMMENDATION

Stage 7 – Recommended Speed Limit (km/h):25	More than one Speed: (Y(km/h)/N): Y, PMD and Existing
Stage 6 – Assessed Speed Limit (km/h):	More than one Speed: (Y(km/h)/N): Y, PMD and Existing
Stage 5 – Considered Speed Limit (km/h):	Speed Management Activities Recommended: (Y/N): N
Stage 4 – SDSL Speed Limit (km/h):	
Stage 3 – RASL Speed Limit (km/h):	Safety Works Required (Y/N):N
Stage 2 – CBSL Apply (Y/N):Y	if Yes, Details:
SUMMARY OF TECHNICAL ASSESSMENTS	

ENGINEERS RECOMMENDATION:

Does the recommended speed limit align with the technical assess	sments assessed speed limit summarised above (Y/N):Y					
If Yes, provide details of any accompanying works or 'context for suitability of the (QRSTUV GSM Section 8) recommended speed limit (if applicable):						
The CBSL process identified that the adoption of 25k	m/h for PMD's on this path appears appropriate.					
It was assumed that the existing speed limit for this sl	hared path was 40km/h, based on the adjacent					
road speed limits, which would allow for a 25km/h spe	eed limit for PMD's.					
The existing shared path speed limit was not requested to be assessed and has remained at 40km/h.						
This existing shared path speed is unsigned, which is	appropriate as it is not a road.					
······································						
If No, detail alternate recommendation and provide reasons / justif	ication of your (the Engineers) recommended speed limit:					
SPEED LIMIT REVIEW - RECOMMENDED SPEED LIMIT (km/h)	25 for PMD's					
RESPONSIBLE OFFICER'S ACCEPTANCE OF ENGINEERS RE	ECOMMENDATION:					
Do you (the Responsible Officer) accept the speed	Name: Jane Smith					
limit review and engineer recommendations undertaken by the Engineer:	Position: Manager (Road Operations)					
No – return to suitably qualified Engineer to repeat Stages 1 - 6 with justification	Signature: Signature Here					
⊠ Yes – submit to SMC	- 28/11/22					
	Date: 20/11/22					
NOTE: In accepting the Engineering Recommendation the responsible offi accordance with the process outlined within the TMR's QRSTUV GSM, by general road safety matters. It is not for the Responsible Officer to question conducted appropriately.	a certified engineer experienced in undertaking speed limit reviews and					
If No, detail why the speed limit review was not accepted (if require	ed):					

STAGE 8 – APPROVAL AND IMPLEMENTATION	
SPEED MANAGEMENT COMMITTEE FINDINGS:	
SMC Endorse Engineers' Recommendations (Y/N):	Date of SMC: .14/11/22
If No, provide justification:	
NOTE: Attach documented findings from the Speed Management Committee	e to this Form
Where the SMC has NOT endorsed the recommendations of the er reconsider the recommendation (<i>refer to QRSTUV GSM Section 9.</i>	
RESPONSIBLE OFFICER APPROVAL:	
Approved Speed Limit (km/h):	Name: Jane Smith
Additional Approved Works (if applicable):	Position: Manager (Road Operations)
	Signature Here
	Date: 28/11/22

NOTE: The responsible officer shall provide a copy of the documentation that supports this Speed Limit Review to either through the approved online system or email to <u>speedlimitreview@tmr.qld.gov.au</u>.

STAGE 9 – MONITOR & EVALUATE

Will the speed limit or speed environment be altered as a result of the recommendations contained within this speed limit review? Yes – program post-implementation to occur within 3 months following implementation and schedule routine review in 5 years or sooner
 No – schedule routine review in 5 years or sooner

MISCELLANEOUS

Enhanced enforcement of this site by QPS has been requested by reporting the outcome of this speed limit review to:

- □ Local Traffic Advisory Committee (TAC)
- □ Local Speed Management Committee (SMC)
- □ Regional QPS Traffic Co-Ordinator

Reported by:
