Contents

1 Introduction1

2 Measurement of work1

2.1 Standard Work Items 1

1 Introduction

This Specification applies to the construction of road and marine structures in geopolymer concrete in strength grades up to 50 MPa.

This Specification shall be read in conjunction with MRS01 *Introduction to Specifications*, MRS50 *Specific Quality Systems Requirements* and other Specifications as appropriate and the quality system requirements of the Contract.

This Specification forms part of the Transport and Main Roads Specifications Manual.

2 Measurement of work

2.1 Standard Work Items

This Specification contains no Standard Work Items. For all applications, payment for geopolymer concrete shall be deemed to be included in the rate or lump sum amount for the relevant Standard Work Items(s) for that structure, slab, footing or precast element.
