(08/26)

Colour Legend

- Black
- Yellow flashing lights

Notes

1. This warning light panel may be used in conjunction with the railway level crossing warning signs TC2093_2 and TC2093_3 to give particular attention to queuing restrictions to a rail crossing. See typical set up example.
2. The conspicuity devices (flashing lights) shall meet the requirements of AS2144 for 200mm diameter signal lanterns.
3. Stiffener rails used on the light panel should be "Type 1" and spaced vertically so as not to interfere with light assembly.
4. * Flashing light separation may vary in the designed to suit specific support posts.
5. For the post design refer to the Design Guide for Roadside signs.
