Colour Legend

Retroreflective white

Black

Notes:

1. This sign may be used to define the location of an overhead vehicle detection system installed in advance of a tunnel or other structure to detect over height vehicles.
2. B size signs may be used where space constraints exist and an A size is not able to be physically accommodated or where the sign is located on a lower speed (less than 80km/h) road.
3. For advance information sign refer to TC1931.
