

Bruce Highway Upgrade

Caloundra Road to Sunshine Motorway

Construction notice

November 2020

Ref: CN83

Notice to motorists and residents

Bruce Highway southbound traffic diverted onto final carriageway

Construction of the jointly-funded Bruce Highway Upgrade – Caloundra Road to Sunshine Motorway (CR2SM) project is progressing well. The project is jointly-funded with the Australian Government committing \$745.6 million and the Queensland Government committing \$186.4 million. Motorists are advised that traffic changes will continue to occur on major and local roads to facilitate ongoing construction works.

From the week commencing **Monday 16 November 2020** (weather permitting), southbound Bruce Highway traffic will be permanently diverted onto a new section of highway at Tanawha. The new highway carriageway will initially provide two lanes for southbound traffic, with an additional third lane of the highway to open south of the Sunshine Motorway in 2021.

This new section of southbound carriageway will connect to the current southbound alignment near Exit 190 at Palmview. The Sunshine Motorway southbound entry ramp to the Bruce Highway will also open to traffic in its permanent location. Refer to below map for detailed information.

What to expect

- Prior to the traffic changes, detours will be in place to facilitate the work.
- Temporary lane closures will also occur to allow for pavement works, signage, guardrail installation and line marking.

- Traffic changes may be in place near work areas including reduced speed limits, road shoulder and lane closures, changes to traffic flow and short-term traffic disruption.
- Traffic signals/traffic controllers will be onsite to manage traffic flow.

Audible noise:

- Heavy machinery will be in use and nearby residents should expect audible noise. Reversing beepers and flashing lights are a safety requirement and will be used at all times during day and night working hours.

Working hours

Both day and night works will be required to complete these works.

The project's working hours are:

- **Night works:** Sunday to Thursday, 7pm to 5am.
- **Day works:** Monday to Saturday, 6am to 6pm.

It is important to note that these activities are dependent on weather conditions.

We thank the local community for your patience and cooperation during these works.
