

# Update on Bruce Highway roadworks and traffic impacts

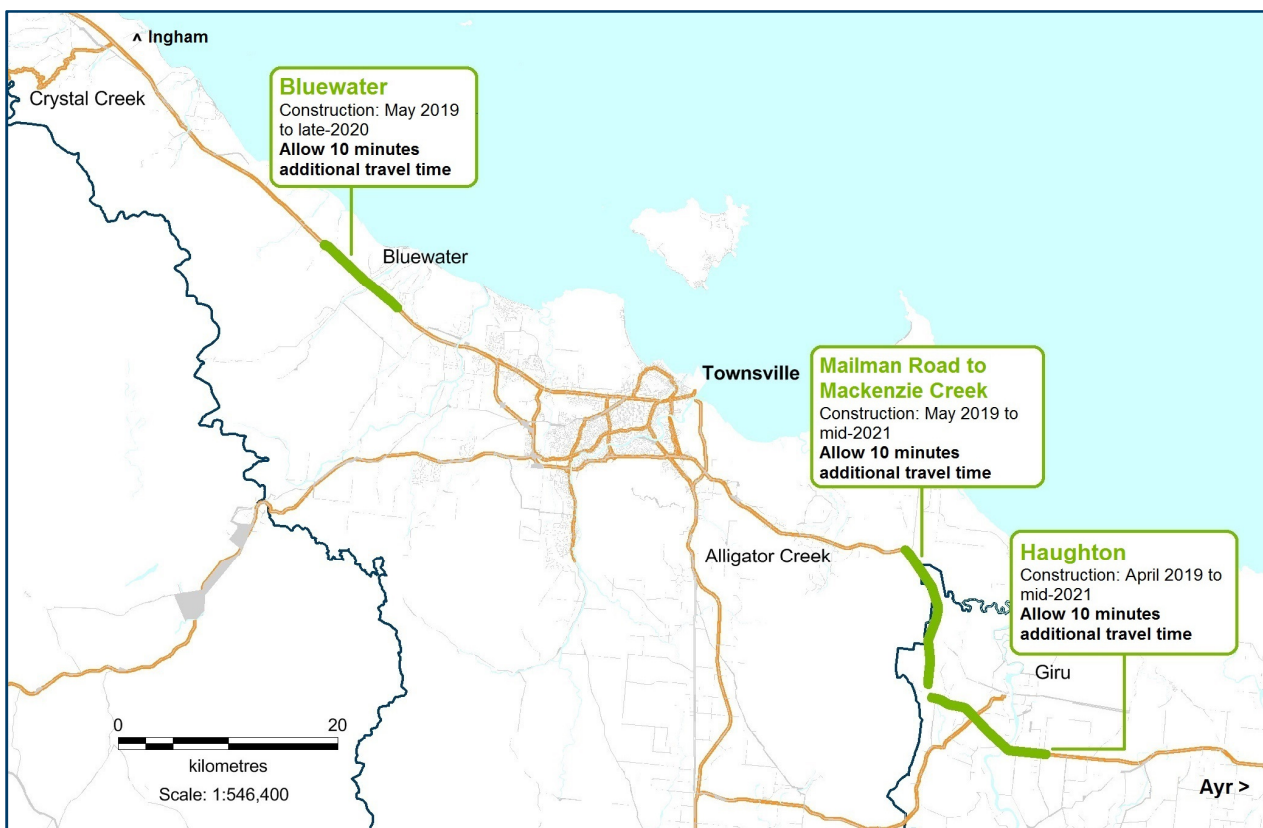

## Late 2019 – mid 2020

The Department of Transport and Main Roads' (TMR) Northern District is undertaking several Bruce Highway safety and flood immunity projects between Ayr and Ingham.

To assist motorists to plan their travel and potentially seek alternative routes, this map shows work locations and provides estimated travel delays (weather and construction conditions permitting).

Motorists are advised to check the latest road conditions before travelling, using the *QLDTraffic* service, available:

- by telephone on 13 19 40
- online at [www.QLDTraffic.qld.gov.au](http://www.QLDTraffic.qld.gov.au) or
- through the free *QLDTraffic* smartphone app, available from the iTunes and Google Play stores.

For more information on these projects contact:

Customer and Stakeholder Management, TMR Northern District office
