

Bruce Highway Upgrade

Caloundra Road to Sunshine Motorway

Construction notice

June 2021

Ref: CN100

Notice to motorists and residents

Frizzo Connection Road link from Bruce Highway northbound Exit 188

Construction on the jointly-funded Bruce Highway Upgrade – Caloundra Road to Sunshine Motorway (CR2SM) is nearing completion. The \$932 million project is jointly-funded with the Australian Government committing \$745.6 million and the Queensland Government committing \$186.4 million.

From the week commencing **23 July 2021** (weather permitting), northbound motorists accessing Palmview, Glenview and the Aussie World precinct will be able to bypass the Caloundra Road interchange and travel underneath the new bridges to link directly from Exit 188 to Frizzo Connection Road via a new signalised intersection.

This will be the new primary northbound route to Frizzo Connection Road, however motorists can still travel via the Caloundra Road interchange, through the traffic signals at Steve Irwin Way and on to Frizzo Connection Road.

The opening of this link is the last major traffic change for the CR2SM project, with major construction expected to be complete by late July 2021, with minor finishing works to follow.

Please see map overleaf for more details.

- scanning the QR code to go the project webpage
- entering your details at the “subscribe to updates” section.

What to expect

Traffic detours and lane closures:

- Prior to the traffic changes, detours will be in place to facilitate the work.
- Temporary lane closures will also occur to allow for pavement works, signage, guardrail installation and line marking.
- Traffic changes may be in place near work areas including reduced speed limits, road shoulder and lane closures, changes to traffic flow and short-term traffic disruption.
- Traffic signals/traffic controllers will be on-site to manage traffic flow.

Audible noise:

- Heavy machinery will be in use and nearby residents should expect audible noise.
- Reversing beepers and flashing lights are a safety requirement and will be used at all times during day and night working hours.

Working hours

Both day and night works will be required to complete these works.

The project’s working hours are:

- **Night works:** Sunday to Thursday, 7pm to 5am.
- **Day works:** Monday to Saturday, 6am to 6pm.

It is important to note that these activities are dependent on weather conditions.

We thank the local community for your patience and cooperation during these works.
