

Bruce Highway Upgrade

Caloundra Road to Sunshine Motorway

Notice to motorists

Bruce Highway southbound diverted onto final carriageway

Construction notice

June 2020

Ref: CN76

The Bruce Highway Upgrade – Caloundra Road to Sunshine Motorway (CR2SM) is progressing well. A number of traffic changes are occurring on major and local roads to facilitate ongoing construction works.

From the week commencing Monday 29 June 2020 (weather permitting), southbound Bruce Highway traffic will be permanently diverted onto a new section of highway just before the Caloundra Road interchange. This new section of highway is part of the permanent southbound carriageway.

Please refer to the image below.

What to expect

Traffic detours and lane closures:

- Prior to and after the traffic changes, southbound Bruce Highway traffic will be detoured at night. Details of traffic detours will be displayed on construction signage.
- Temporary lane closures will also occur to allow for pavement, signage, guardrail, barrier and line marking works.

- Traffic controllers and police will be present to assist motorists if required. Motorists are advised to follow directional signage and allow extra travel time.
- **Priority access through the work zone will be given to emergency vehicles, where possible.**

Temporary lighting and audible noise

- Lighting towers will be used to light the area at night. Audible noise from construction activities and heavy machinery can be expected.

Working hours

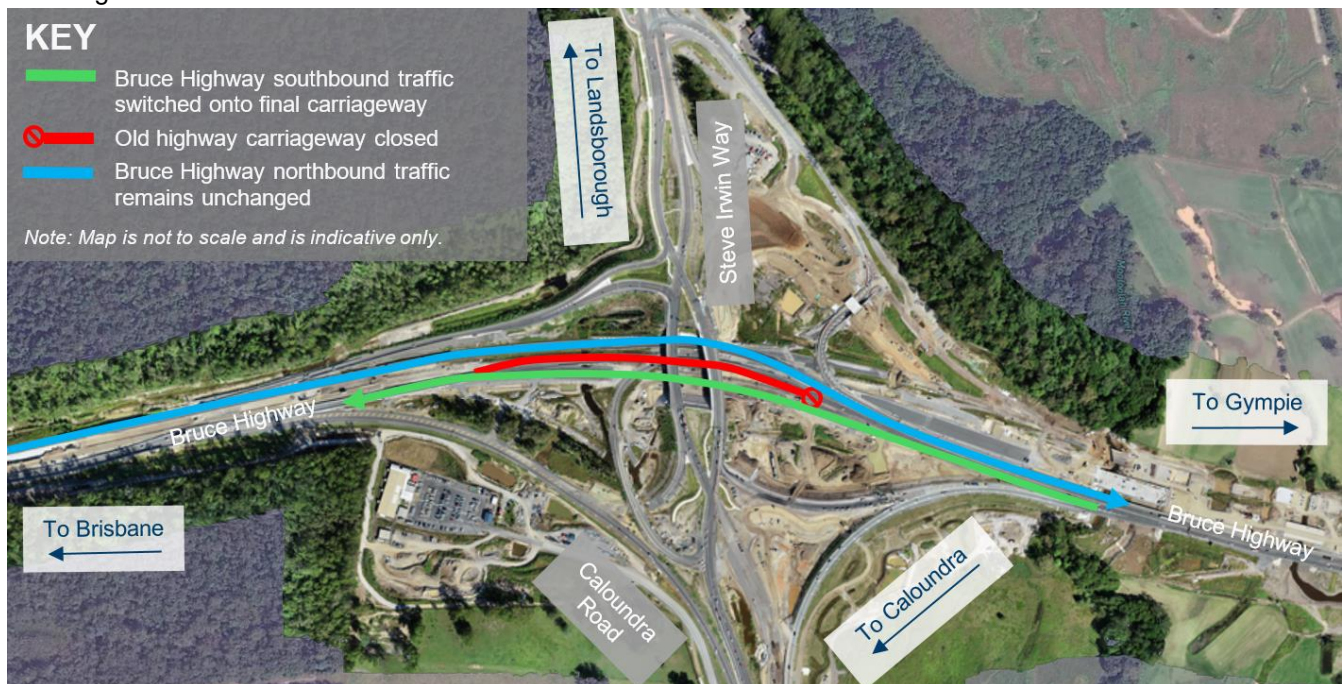

Both day and night works will be required to complete these works.

The project's working hours are:

- **Night works:** Sunday to Thursday, 7pm to 5am.
- **Day works:** Monday to Saturday, 6am to 6pm.

It is important to note that these activities are dependent on weather conditions.

We thank the local community for your patience and cooperation during these works.
