

## Sumners Road Interchange: Underground Services Investigations

Dear Stakeholder,

13 November 2017

### Sumners Road Interchange: Underground Services Investigations

The Department of Transport and Main Roads (TMR) would like to advise that underground services investigations will be carried out on the Sumners Road interchange between the roundabout on Sumners and Monier Road, Darra, including underneath the Sumners Road overpass on the Centenary Highway.

These preliminary works are required to locate underground services to prepare for the construction of the Sumners Road interchange upgrade. Investigations need to be undertaken to determine the location of underground services within the Sumners Road interchange to inform the design of the Sumners Road interchange upgrade.

#### Timing:

These investigation works are expected to commence **mid November 2017** and will conclude **by mid December 2017**.

A combination of day and night works will be required to complete these works. Day works will be undertaken wherever possible. However, some works will be carried out at night when traffic volumes are lower, for the safety of motorists and workers.

- **Day works:** Sunday to Friday from 7am to 3pm.
- **Night works:** Sunday to Friday from 7pm to 5am.

Additional working hours may be required based on construction conditions encountered during potholing activities.

#### Works will include:

- investigation and surveying works to locate services to allow relocation prior to future road upgrades.
- excavation machinery will be used during these investigations, however TMR will endeavor to minimise noise.

#### Expected impacts:

- nearby residents and businesses may experience short term impacts, including additional noise and light, from construction equipment and activities

- temporary lighting towers will be used to provide additional light within the work area and will be directed away from surrounding properties where possible
- the use of flashing lights and reversing alarms on machinery and vehicles for the safety of workers
- investigation works will be undertaken on the footpath however safe access will be maintained at all times.
- intermittent lane closures and traffic delays.

Every effort will be made to minimise construction impacts on the local community. We thank you for your patience and understanding during these important works.

Please note, the timing of all activities is subject to weather and construction conditions. Should activities be delayed by weather, they will be rescheduled for the next available work shift.

TMR will distribute notifications to nearby residents and businesses before work begins. This notification will include information on the work and the contact details for the Project Team.

For more information on this work, please contact the Project Team by emailing [sumnersroad@tmr.qld.gov.au](mailto:sumnersroad@tmr.qld.gov.au) or calling 1800 209 020 during business hours.

For up-to-date information on road closures and traffic conditions across Queensland, go to [www.qldtraffic.qld.gov.au](http://www.qldtraffic.qld.gov.au) or call 13 19 40.

TMR appreciates your patience while these important works are being carried out.

Kind regards,

### **The Project Team**
