

Sumners Road Interchange Upgrade - start of construction & community information sessions

Dear Resident,

The Department of Transport and Main Roads (TMR) would like to advise construction will commence on the Sumners Road Interchange Upgrade (SRIU) in late-July 2019.

Community information sessions will be held by the project to discuss the upgrade at the Mount Ommaney Shopping Centre (near Aldi) at 171 Dandenong Road. Drop by anytime to talk to the project team and find out more on the following dates:

- Thursday 18 July 2019 6pm to 8pm
- Saturday 20 July 2019 12pm to 2pm

The upgrade will deliver:

- increased capacity through the interchange by providing more traffic lanes and reducing congestion
- signalised intersections enabling better traffic management and more reliable and efficient travel times
- u-turn facilities at both intersections, giving motorists improved access to local businesses
- a grade separated cycle track will be built as an underpass below the western intersection, safer and improved facilities for pedestrians and people who ride bikes, with shared pathways and on-road cycle lanes, dedicated crossing facilities and links to the surrounding local network and Centenary Motorway Bikeway.

Timing:

- Construction works will commence in **late-July 2019** and are expected to be completed in **late-2021**, construction and weather conditions permitting.
- A combination of day and night works will be undertaken. Night works will be undertaken in areas close to the road for the safety of the work crew and road users and to minimise the impact to the road network.
- Standard construction hours will include night works from **7pm to 5am, Sunday to Thursday** and day works from **6am to 6pm, Monday to Friday**, and **6am to 2pm on Saturday**.

Initial work will include site establishment and set up, survey works, service locations and some line marking and barrier set up across the site.

Expected impacts:

- Nearby residents/businesses may experience short term impacts, including noise, dust, vibration, lighting, loss of parking from construction equipment and activities onsite.
- Pedestrians/people riding bikes/motorists should expect changed traffic conditions, including speed limit restrictions, temporary loss of parking spaces, partial lane closures or shoulder closure, diversion, other traffic control measures and minor delays.
- Traffic control and signage will be in place as required. Please allow extra time when planning your travel.

- Driveway access to properties may be temporarily restricted during construction, however traffic control will be present to assist motorists/pedestrians if required. The project team will provide prior notice to residents if access will be changed.

For more information on this work, or to sign up to the project email list, please contact the Project Team by emailing sumnersroad@tmr.qld.gov.au or calling 1800 209 020 during business hours. Alternatively, you can also visit www.tmr.qld.gov.au and search for 'Sumners Road'.

For up-to-date information on road closures and traffic conditions across Queensland, go to www.qldtraffic.qld.gov.au or call 13 19 40.

TMR apologises in advance for any inconvenience and appreciates your patience while these important works are being carried out.

Kind regards,

The Project Team
