

Queensland Regulated Ship Census, June 2018

About this publication

This publication presents the results of a census taken of Queensland regulated ships that were registered on 30 June 2018. Queensland regulated ships are recreational vessels or other vessels expressly excluded from the operation of the Marine Safety (Domestic Commercial Vessels) National Law Act 2012 (Cth) or the Navigation Act 2012 (Cth).

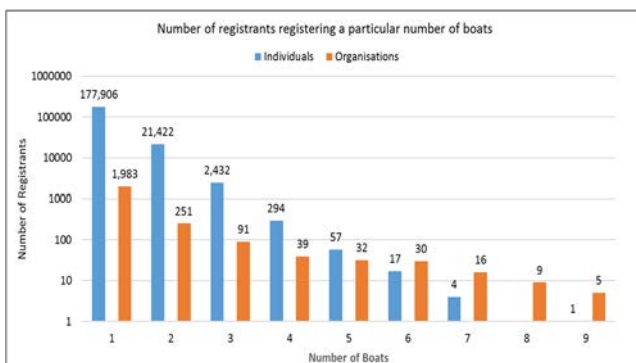

The data presented in this publication was extracted from the Department of Transport and Main Roads TRAILS Registration System (the register) on 12 July 2018.

Tables of statistics are included which give selected details of the ships. These include the maritime region in which the ships were registered, the length of the ship, the ship types, the engine output, the year of manufacture, the method of storage and the age, gender and licence status of those who have registered the ships.

For purposes of comparison, data is also provided at 30 June for the years 2013 and 2017.

The calculation of the growth rates and decommissioning rates mentioned in this report have been made using the formulas described in the Australian Bureau of Statistics 9309.0 - Motor Vehicle Census, Australia using data presented in the attached tables and previous additions of this report.

Key Points

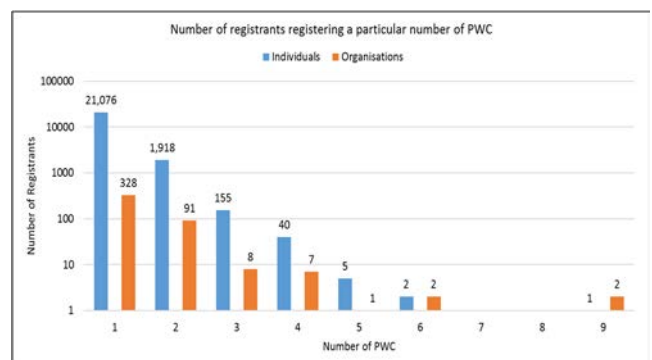

At 30 June 2018 there were 259,832 Regulated Ships (boats and personal water craft) listed on the register by 223,168 different registrants (individuals or organisations). This equates to approximately one registered Regulated Ship for every 19 people resident in Queensland.

There were 233,478 boats registered by 204,613 registrants. The majority of registrants (88%) had registered a single boat while another 10.5% of registrants had registered two boats. The remaining 1.5% of registrants had registered a total of 4.4%

all registered boats (10,243). While the majority of boats (229,646) were registered by individuals, 3832 boats were registered by 2480 organisations.

There were also 26,354 PWC registered to 23,643 registrants. The majority of registrants (90.5%) had registered a single PWC while another 8.5% of registrants had registered two PWC. The remaining 1% of registrants had registered a total of 3.5% of all registered PWC (932). While the majority of PWC (25,598) were registered by individuals, 756 PWC were registered by 445 organisations.

It is of interest to note that 5088 registrants had registered at least one boat and at least one PWC. In total these registrants registered 6561 boats and 6097 PWC.

The majority (69%) registered a single boat and a single PWC.

2013	18417	15616	19557	226617
2017	17772	17051	19696	233438
2018	16796	16756	19448	233478
PWC				
2013	3027	1652	2319	18773
2017	3636	2168	3086	24902
2018	3767	2315	3159	26354

During the twelve months ending 30 June 2018, 16,796 boat registrations were added to the register, 16,756 were removed from the register, while 19,448 were transferred from one registrant to another. Based on these figures Queensland's flotilla of registered boats has a decommissioning rate of approximately 6.7% per annum.

Over this same period 3767 PWC registrations were added to the register, 2315 were removed from the register while 3159 were transferred from one registrant to another. Based on these figures Queensland's flotilla of registered PWC has a decommissioning rate of approximately 8% per annum.

Together these transactions resulted in the number of boats and PWC on the register increasing by 0.02% and 5.83% over the past year and by an annual average rate of 0.6% and 7% over the past five years respectively.

The most popular type of boat is the open runabout which accounts for 66% (154,171) of the boat flotilla. Almost all of these boats (89%, 136,398) are trailered rather than moored or otherwise accommodated.

Fifty per cent of open runabouts are: no longer than 4 metres, have engines producing no more than 22 kilowatts, were manufactured no more than 14 years ago. The median age of the registrant of these boat was 54 years. Nine per cent (13,926) of open runabout fall within all four of these limits.

Generally the majority of boats (71%) are no more than 5 metres in length. This percentage increases to 97% for boats which are no more than 10 metres in length.

The engine output figures need to be interpreted with some caution as they are likely to indicate the power of the motor fitted to a boat at the time it was first registered. Sixty-six per cent of boats are fitted with an engine producing no more than 50 kilowatts while 92% of boats are fitted with engines producing no more than 150 kilowatts.

Estimating the age of the flotilla presents some difficulty as 18% of boats were registered without the year of manufacture being recorded.

Nevertheless the extant records indicate that 20% of boats were manufactured before 1996, 44% were manufactured between 1996 and 2010 leaving 16% that were manufactured within the last 8 years. The average age of a boat is 16.9 years and the median age is 14 years.

In contrast only 0.5% of PWC have been registered without the year of manufacture being recorded.

The majority of PWC (78%) were manufactured between 2006 and 2018 while 21% of PWC were manufactured before 2005 when PWCL were first introduced. The average age of a PWC is 7.9 years and the median age is 7 years.

Baby Boomers (people born between 1947 and 1966) registered 44% of the boats and 30% of the PWC on the register. Generation X/Y (people born between 1967 and 1986) registered 37% of the boats and 51% of the PWC.

The average ages of those registering a boat or a PWC were 53 years and 45 years respectively. Males registered 89% of the boats and 84% of the PWC on the register.

Twelve per cent of boats have been registered by a registrant who does not hold a Recreational Marine Driver Licence (RMDL). Forty-four per cent of registrants obtained their RMDL no later than the year 2000 while 43.4% obtained their RMDL between 2001 and 2018.

Eleven per cent of PWC have been registered by a registrant who does not hold a Personal Water Craft Licence (PWCL). Fifteen per cent were issued a PWCL in 2005, the first year in which PWCL were issued, while 75% were issued a PWCL between 2006 and 2018.
