Temporary lane closures at the Mains Road and Kessels Road intersection

Lane closures will be in place for westbound traffic on Kessels Road to facilitate works on the Mains Road bridge deck. These works were planned for the weekend of the 17 and 18 August 2013, however they were delayed due to construction conditions.

The right-hand turn lane on Kessels Road (westbound turning into Mains Road) will be closed at times between 8pm Friday 23 August 2013 and 5am Monday 26 August 2013. The project will open the right-turn lane between 6.30am and 8pm on Sunday 25 August 2013 to minimise the impacts of these works.

When the right-turn lane is closed, road users travelling westbound on Kessels Road will not be able to undertake right-turns or u-turns at the Mains Road and Kessels Road intersection. A detour will be provided to assist motorists; the detour is highlighted on the map below.

The lane closures will allow for the relieving slabs for the eastern half of the Mains Road bridge deck to be installed. The relieving slabs act as a connection between the new bridge deck and the road pavement on the approach to the bridge.

Traffic management, signage and police will be in place to direct motorists during the lane closures. Please allow additional time to complete your journey. Access to businesses and residential properties will be maintained at all times.

What to expect during these works:
- a lane closure and traffic control will be in place
- noise and dust from works to install the relieving slabs
- noise, dust, vibration and odour associated with asphalting works
- some lights from construction vehicles.

Every reasonable effort will be made to minimise disruptions to residents and businesses.

If you would like further information about these works, or the Mains and Kessels upgrade, please contact the Community Engagement Team on 1800 227 804*.
