Monto–Mount Perry Road Upgrade
August 2014

Project overview
Almost 12km of gravel road will be sealed between the Burnett River and Eastern Creek, creating about 18km of continuous bitumen road.

The project is proudly funded by the Queensland Government’s Royalties for the Regions program, the Department of Transport and Main Roads, and North Burnett Regional Council.

Project timeframes
Preliminary works will begin in August 2014, with crews expected to begin construction works in December 2014. It is estimated that construction will continue until late 2015, weather permitting.

Traffic impacts
Motorists should expect changed traffic conditions, including reduced speed limits, while works are underway. Some temporary road closures may be required during construction to allow the works to be completed safely and efficiently. Further community updates will be provided in advance of any closures.

Great state. Great opportunity.
Three sections of road will be sealed as part of the project.

1. Burnett River to Oaky Creek

2. Oaky Creek to Scrubby Creek

3. Scrubby Creek to Eastern Creek.
