

Old Coach Road Connector

Corridor preservation study

Pacific Motorway

The Department of Transport and Main Roads, in partnership with Gold Coast City Council, is considering road improvements which would assist traffic flow west of the Pacific Motorway at Reedy Creek.

A planning study is currently underway, looking into the provision of a new connection, linking the Pacific Motorway and Old Coach Road. This connection, leaving the motorway at the Burleigh Interchange (Exit 87), has been indicated in the Gold Coast street directory for several years.

Referred to as the Old Coach Road Connector, this link would help manage traffic growth on the western side of the motorway and enable some local traffic to avoid the motorway altogether.

The first phase of the Old Coach Road Connector includes the preservation of a suitable road corridor between Burleigh Interchange (Exit 87) and Old Coach Road.

A connection in this area would provide greater connectivity between the Pacific Motorway, Reedy Creek, West Burleigh, Old Burleigh Town and the surrounding areas.

The connection would also provide a more direct route from Tallebudgera Valley along Old Coach Road which ultimately, would require upgrading.

Consultation is now underway to gather community views on this project.

Get involved

The department and council are seeking your feedback on the preservation of the corridor and the future road link.

How to participate

Visit the website at www.tmr.qld.gov.au or www.goldcoast.qld.gov.au and search for 'Old Coach Road Connector'.

- Fill in the feedback form and post it to the project team (a reply paid envelope can be made by folding and sealing the feedback form)
- Visit the project team at the community information session
- Email your feedback to PDO.Regions.Goldcoast@tmr.qld.gov.au
- Call 1800 236 871*.

* Free call Australia wide. Higher rates may apply from mobile phones and pay phones.

Community information session

The department and council are seeking feedback from the community on the proposed Old Coach Road Connector. The department will answer your questions and capture your feedback at the session detailed below:

Date	Time	Location
Saturday 12 November 2011	10am to 1pm	Wonga Park, Cowell Drive, Burleigh Heads Qld

Unstaffed displays

Unstaffed displays can be viewed at the following venues from 3 November 2011.

Where	Location
Elanora Library	The Pines Shopping Centre, Guineas Creek Road
Robina Library	Robina Town Centre Drive, Robina

Old Coach Road Connector proposal

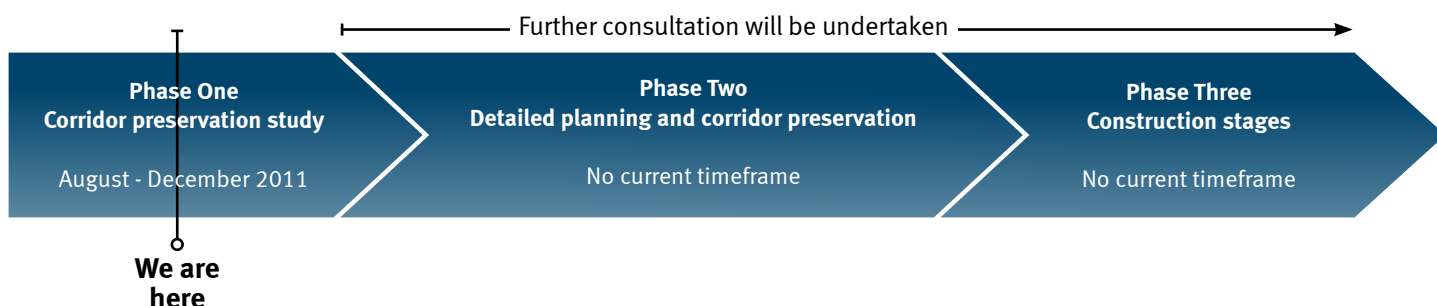

What's next?

The department and council are committed to involving and informing the local community about the Old Coach Road Connector and will provide updates during proposed future phases.

Following the consultation phase, the department and council will work towards preserving a suitable road corridor. Additional engineering investigations will take the project into the detailed planning phase (phase two).

The cost and timing for providing this new road connection is dependent on integration of this proposal with other Department of Transport and Main Roads projects such as the ultimate upgrading of the Pacific Motorway, and with other road and land use requirements managed by Gold Coast City Council.

Project timeline

Old Coach Road Connector Corridor Preservation Study

Your feedback is important

The Department of Transport and Main Roads, in partnership with Gold Coast City Council, would like your feedback on phase one of the Old Coach Road Connector corridor preservation study.

We would like to understand your view on the proposed connection which will link the Burleigh Interchange (Exit 87) and Old Coach Road. Your feedback, together with further engineering investigations, will help guide planning.

You can provide your feedback by completing this form and returning it to the project team via Australia Post (no stamp required). Comments must be received by Friday 25 November 2011.

Please list your key three areas of interest in relation to the Old Coach Road Connector (for example, environment, noise, design)

1. _____
2. _____
3. _____
