

# Maryborough–Cooloola Road Reconstruction update – February 2013

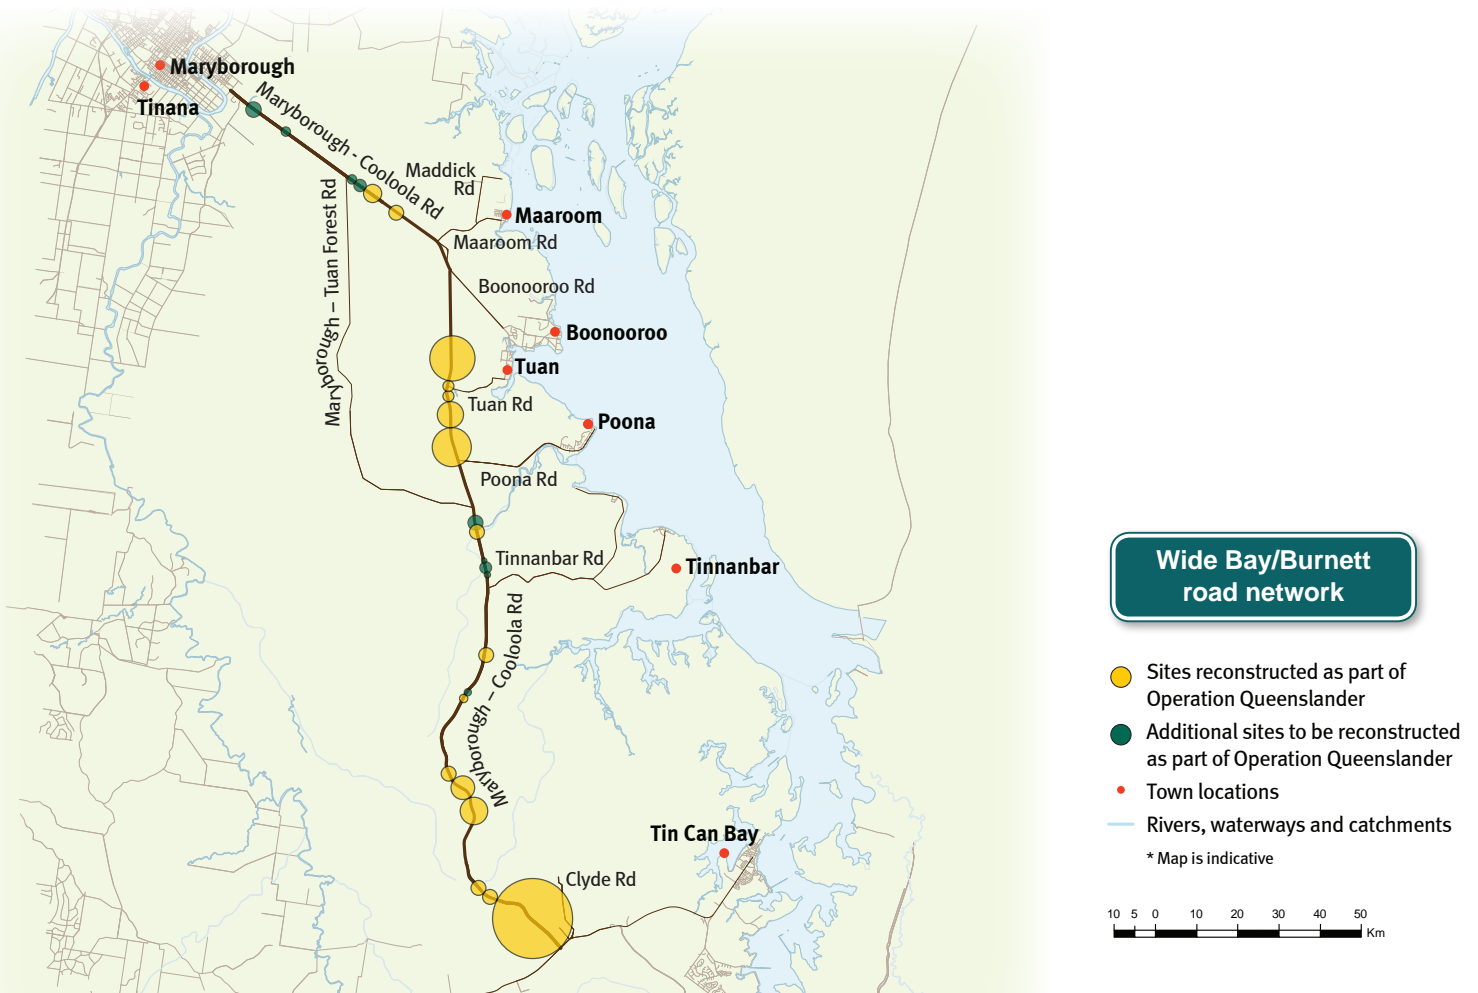

Reconstruction works from the 2010/2011 flood event have been completed across the length of Maryborough–Cooloola Road, excluding the final seals. The Department of Transport and Main Roads thanks you for your ongoing patience since late 2011 when the reconstruction works first started on Maryborough–Cooloola Road.

As previously advised, the department applied for further funding to reconstruct additional sites along Maryborough–Cooloola Road following the March 2012 flood event. This funding was recently approved and the additional works will include more than three kilometres across nine sites. The additional works have recently started and are anticipated to be completed by mid-2013, weather permitting. Works will occur between 6am and 6pm, Monday to Saturday.

To assist motorists plan their travels, the map includes green dots of where works will occur between now and mid-2013. The department recommends that motorists factor an additional 15 minutes travel time to their journey if travelling the length of the road. At work sites, stop-and-go traffic arrangements are generally in place during work hours and reduced speed limits apply outside of work hours. Please slow down, drive to the changed traffic conditions and obey all signage at roadworks to ensure the safety of roadworkers and motorists. The department appreciates your patience while these essential works are completed.

The reconstruction works are being delivered under the Natural Disaster Relief and Recovery Arrangements, with the Australian Government providing 75% of the funding and 25% from the Queensland Government.
