

Proposed rail corridor alignment Salisbury to Beaudesert

The alignment and stations shown are proposed only. No decisions or land requirements have been determined at this early stage. We would like your feedback to help us plan for the future rail alignment.

Northern section

The proposed dedicated passenger rail line will follow the same alignment as the existing interstate rail freight line.

Central section

The proposed dedicated passenger rail line will follow the same alignment as the existing interstate rail freight line.

Southern section

The proposed dedicated passenger rail line will deviate east from the existing interstate rail freight line to connect with Beaudesert.
